

# SEWER BACK-UP UPDATE

## Montclair Drive & Linbrook Road

The MDC has been working diligently in response to the recent sewer back up that occurred on Linbrook Road. A sewer pipe liner collapsed causing the blockage which resulted in the backup. MDC staff, including management, emergency repair crews and claims responded to the incident to thoroughly inspect the cause and attend to all affected residents.

At this time, normal sewer services have been restored for all properties. Your continued patience and cooperation is greatly appreciated as we continue to evaluate the extent of the repair.

Work to repair the sewer will include excavating and replacing the segment of sewer that experienced the blockage. Due to the nature of the work, work hours may extend into the evening and potentially on Saturdays.

Linbrook Road will remain closed to thru traffic but local access will be maintained.

Additional notifications will be provided pertaining to the Montclair/Linbrook Project including an update on the completion, restoration and town paving schedule to close out the project.
