

MDC ANNUAL WATERSHED INSPECTIONS BEGIN

Property inspections begin in March in the towns of Barkhamsted, Hartland, New Hartford, Burlington, Harwinton, Torrington, Winsted, Avon, Simsbury, Bloomfield and West Hartford.

February 25, 2020
For Immediate Release

(HARTFORD, CT) – The Metropolitan District (MDC) will be conducting its state-mandated annual watershed sanitary survey and inspection program beginning in March. The purpose of the program, which will continue through November, is to prevent contamination of the MDC’s drinking water supplies as a result of, among other things, septic system failure, erosion, runoff, and other potential pollutants.

Routine watershed sanitary surveys are required by Section 19-13-B102 (b) of the Connecticut Public Health Code.

Property inspections will take place in the towns of Barkhamsted and Hartland on the Barkhamsted Reservoir watershed; in New Hartford, Burlington, Harwinton, Torrington and Winsted on the Nepaug Reservoir watershed; and in the towns of Avon, Simsbury, Bloomfield and West Hartford on the West Hartford/Reservoir No. 6 watersheds.

Routine field inspections take only a few minutes and will be conducted by MDC’s Watershed Inspector who carries appropriate MDC identification and drives an authorized MDC vehicle. The Inspector does not enter homes; the inspection is limited to the exterior portions of the real property.

If a violation or an issue is detected, it is reported to the property owner and health officials as required by law.

Property owners may receive more information by contacting the MDC Watershed Management Unit, Barkhamsted Water Supply Division at 860-278-7850 extension 3102.

***About MDC:** The MDC is a nonprofit municipal corporation chartered by the Connecticut General Assembly in 1929. The MDC provides water, wastewater treatment and other services to its member towns: Bloomfield, East Hartford, Hartford, Newington, Rocky Hill, West Hartford, Wethersfield and Windsor. In addition, the District supplies treated water to portions of Glastonbury, South Windsor, Farmington, East Granby and Portland.*

For Immediate Release

(HARTFORD, CT) – The Metropolitan District (MDC) will be conducting its state-mandated annual watershed sanitary survey and inspection program beginning in March. The purpose of the program, which will continue through November, is to prevent contamination of the MDC’s drinking water supplies as a result of, among other things, septic system failure, erosion, runoff, and other potential pollutants.

Routine watershed sanitary surveys are required by Section 19-13-B102 (b) of the Connecticut Public Health Code.

The Barkhamsted Reservoir is located in Connecticut but the watershed area that drains to the Reservoir includes lands located within the Towns of Granville and Tolland, MA. As a result, property inspections will take place in the towns of Tolland and Granville, Massachusetts, beginning in late spring.

Routine field inspections take only a few minutes and will be conducted by MDC’s Watershed Inspector who carries appropriate MDC identification and drives an authorized MDC vehicle. The Inspector does not enter homes; the inspection is limited to the exterior portions of the real property.

If a violation or a problem is detected, it is reported to the property owner and town officials. Information about faulty septic systems will be forwarded to the Massachusetts Department of Environmental Protection, as required by law.

Property owners may receive more information by contacting the MDC Watershed Management Unit, Barkhamsted Water Supply Division at 860-278-7850 extension 3102.
