PUBLIC COMMENTS RELATIVE TO AGENDA ITEMS

Judy Allen of West Hartford submitted the following written comments:

As you consider water and sewer rates for 2023, I must again call your attention to the discounts for large volume water users. Currently only one customer can make use of the discount. No other customer is even close to using that amount of water. It is clear that this customer buys water in response to market conditions and not because of discounts.

Therefore, since the establishment of these discounts, the MDC has lost over \$1,033,000 in revenue.

This discount has been called an economic development rate, yet this large volume user rate has no end date. A typical economic development rate is gradually lessened over time such that eventually the business is paying full freight just as all other customers do.

While there is nothing preventing you from reducing the amount of the discount, in the past 2 years there has been no indication that a reduction over time is being considered.

This rate has failed to accomplish its goal. It has not attracted any new industry to the MDC member towns, it has not resulted in Niagara Bottling buying extra huge amounts of water.

The action you should take is quite clear. Either decide to eliminate the large volume user rate, or begin to reduce it.

What is proposed for next year is a rate for large volume users that is \$.75 less than the rest of us pay. Take one baby step toward making this a true economic development rate, reduce the large volume water rate by just one nickel. At least have a discussion about the discounted rates in public. Niagara is here, it is established, they aren't moving out.

MDC is abundantly fortunate to have plentiful water. Other parts of our state are in dire need of potable water. Please set an example of being good stewards of our water and don't give away water while others struggle.

WATER BUREAU REVISIONS TO DISTRICT WATER RATES

To: District Board

December 5, 2022

From: Water Bureau

The 2023 budget in support of Water Operations calls for the water use rate to decrease from \$4.09 per hundred cubic feet (CCF) to **\$3.80/CCF**. The changes will become effective January 1, 2023. A discussion of several rates that comprise the proposed schedule for 2023 and the recommendations pertaining to each follows:

Water Used Charge – Treated Water

Staff recommends that the rate charged for the use of treated water based on actual metered consumption decrease from \$4.09 per CCF to **\$3.80** per CCF.

CURRENT RATE
\$4.09/CCF

PROPOSED RATE
\$3.80 / CCF

Customer Service Charge

Revenues from this customer service charge are intended to support a portion of the fixed operating, maintenance and debt costs associated with water operations.

There are no proposed changes to the Customer Service Charge for 2023.

Surcharge Outside The Metropolitan District

A fixed "surcharge" rate is added to all accounts for service outside the boundaries of the District. The surcharge is based on the size of the meter that serves each delivery point. Revenues from this charge are for the reimbursement of assets deployed. The surcharge rates have been set at the same rates as the Customer Service Charges. ***There are no proposed changes to the surcharge for 2023.***

Water Used Charge – Untreated Water

The District provides untreated water to other agencies and water companies for a fixed rate based on actual consumption. The current rate for this untreated or "raw" water is \$1.50 per hundred cubic feet of consumption. ***It is recommended that the charge for untreated water remain at the rate of \$1.50 per hundred cubic feet.***

Surcharge Outside the Metropolitan District for Capital Improvements

A surcharge is added to the water rate to recover the cost of major capital improvements and/or upgrades such as water main extensions, pump stations, etc. in non-member towns. The surcharge is calculated based on the aggregate hydraulic capacity of each meter size in each non-member town.

Private Fire Protection Charge

Rates for private fire protection are charged to all fire service accounts, including combination services, based on the size of the service connection. Staff recommends monthly fire protection charges to remain unchanged as follows:

Conclusion

Staff believes that the foregoing rate change recommendations are justified, reflect the sound financial administration that has earned the District support among credit rating agencies and financial advisors, and are consistent with the policy direction of the Commission.

At a meeting of the Water Bureau held on November 14, 2022, it was:

Further**Voted:**

That following the public hearing held on November 7, 2022, as required by Special Act 01-3 adopted by the General Assembly of the

State of Connecticut, and Section 2-14 of the Compiled Charter of The Metropolitan District, the Water Bureau recommends to the District Board, through the Committee on MDC Government, approval of the following "REVISIONS TO WATER SUPPLY ORDINANCES" by the enactment of said proposed ordinances. (Additions are indicated in red and deletions by strikethrough).

REVISIONS TO WATER SUPPLY ORDINANCES

SEC. W1a WATER USED CHARGE (TREATED WATER)

For customers which do not resell treated water, the WATER USED CHARGE is the quantity of water used as read at the meter, as follows:

<u>BILLS RENDERED MONTHLY</u>	<u>RATE</u>
	\$4.09 \$3.80 per 100 Cubic Feet

The WATER USED CHARGE for such customers subject to § S12x of The Metropolitan District Sewer Ordinances who purchase more than 802ccf of water per day, as averaged over a monthly billing period, as follows:

For each of the first 802ccf of water used per day:

<u>BILLS RENDERED MONTHLY</u>	<u>RATE</u>
	\$4.09 \$3.80 per 100 Cubic Feet

For each ccf of water used per day in excess of 802ccf:

<u>BILLS RENDERED MONTHLY</u>	<u>RATE</u>
	\$3.34 \$3.05 per 100 Cubic Feet

For customers which, by agreement with the District or otherwise, resell treated water, the WATER USED CHARGE is the quantity of water used as read at the meter, as follows:

<u>BILLS RENDERED MONTHLY</u>	<u>RATE</u>
	\$4.09 \$3.80 per 100 Cubic Feet

SEC. W1f SURCHARGE OUTSIDE THE METROPOLITAN DISTRICT FOR CAPITAL IMPROVEMENTS

In towns outside the limits of The Metropolitan District for which capital improvements or layout and assessment projects are constructed, in addition to the charges set forth in SEC. W1a, W1b and W1c, there shall be a surcharge on the water rates determined from the size of the meter installed on the premises, as follows:

1. On or before the end of each fiscal year, The Metropolitan District shall determine the actual cost of each capital improvement constructed for each non-member town and the net cost (cost less assessments) of layout and assessment projects constructed for each non-member town. The costs and/or net costs, as applicable,

shall be allocated to the towns for which the work was performed and shall be a surcharge on the water rates of the users located in such towns.

2. The annual surcharge to be added to each user's water rate shall equal the total amount of the costs and/or net costs, as applicable, allocated to the town in which such user is located [excluding costs which the town has paid as set forth in Section W1f(3)] amortized over a twenty year period using an interest rate computed by the District which approximates the District's long-term cost of funds for its General Obligation Bond portfolio-multiplied by the percentage of hydraulic capacity of each user's meter size (based on the American Water Works Association meter size capacity) of the aggregate hydraulic capacity of all meters in such town. The surcharge shall be billed in either quarterly or monthly installments, as applicable, commencing with the first bill sent out in the fiscal year succeeding the fiscal year in which the work was performed and continuing over the twenty year period.

3. The District shall, as soon as possible after the completion of each capital improvement project or separate phase thereof, provide to the non-member towns for which a capital improvement was constructed a compilation of the costs associated with the construction of such project(s). If, on or before the end of the District's fiscal year in which such construction was completed, a non-member town agrees to pay and does in fact pay all or a portion of the cost of a capital improvement constructed for such town, then the amount paid by such town shall be deducted from the total amount of costs and/or net costs allocated to such town as described in Section W1f(1) and used to calculate the individual surcharges as set forth in Section W1f(2).

Commissioner Pane made a motion to amend the W1f Non-member Town CIP Surcharge for Glastonbury, as shown below in blue.

AMENDMENT

To: District Board

December 5, 2022

From: District Clerk

District Water Ordinance § W1f relates to cost recovery for capital improvements in non-member towns (“NMT CIP surcharge”). The rate varies by town and meter size. The proposed 2023 water rates were published for public hearing on October 28, 2022. On October 26, 2022, a 6in water service and meter was installed at a property in Glastonbury. Previously, there was no 6in water service in Glastonbury and therefore no established NMT CIP surcharge rate for a 6in meter in Glastonbury. The following proposed amendment modifies the 2023 NMT CIP surcharge for Glastonbury customers which includes the addition of a rate for a 6in meter.

**BUREAU OF PUBLIC WORKS
FISCAL YEAR 2023 - REVISIONS TO DISTRICT SEWER USER CHARGE RATES
AND OTHER SEWER CHARGES**

To: District Board

December 5, 2022

From: Bureau of Public Works

In accordance with Section S12j of the District's Ordinances, sewer use unit charge rates shall be determined annually in conjunction with adoption of the District Budget. The 2023 budget in support of sewer operations calls for a sewer user charge rate to remain unchanged at \$5.90 per ccf or 0.0% change effective January 1, 2023.

Additionally, in support of the 2023 budget and in accordance with Section S12l of the District's Ordinances, the monthly sewer customer service charge per connection will remain at \$9.00 or 0.0% change effective January 1, 2023.

There will be an Administrative Review Fee for work performed by the Utility Services department, Engineering, Real Estate, Environment, Health & Safety, and others related to customer requests. The Administrative Review Fee includes, but is not limited to, the following individual services: availability and capacity analysis, assessment calculation, permit applications for non-domestic sewage wastewater discharges (including, but not limited to, individual permits, Significant Industrial Users, Categorical Industrial User Wastewater to a POTW, Food Service Establishment Wastewater, Groundwater Remediation Wastewater, Miscellaneous Discharges of Sewer Compatible (MISC) Wastewater, Vehicle Maintenance Wastewater), encroachment permits, abandonment of infrastructure, Engineering/Environmental surveys and documentation requests; this fee will be \$600.

The Annual Wastewater Discharge Compliance Fee of \$150 for all permitted

wastewater discharges categorized as non-domestic sewage discharges, including but limited to, individual permits, Significant Industrial Users, Categorical Industrial User Wastewater to a POTW, Food Service Establishment Wastewater, Groundwater Remediation Wastewater, Miscellaneous Discharges of Sewer Compatible (MISC) Wastewater, Vehicle Maintenance Wastewater will be split into 12 monthly increments at a billing rate of \$12.50. The charge is related to costs associated with annual administration and review of discharge monitoring reports, verification of discharges and inventorying and management of customer data.

Following the cost trend for the sewer user charge rate, it is recommended the BOD and COD rates remain unchanged at \$0.70 per pound or effective January 1, 2023. In addition, the suspended solids strength charge will also remain unchanged at \$0.58 per pound effective January 1, 2023. These unit charges, which apply to high flow users, low flow/high strength users and non-municipal tax-exempt users, are for the following:

Liquid flow charge rate based on sewer flow in hundreds of cubic feet (CCF).

1. BOD (biochemical oxygen demand) strength charge rate based on pounds of BOD for the concentration of BOD exceeding 300 milligrams per liter (mg/l); AND/OR

COD (chemical oxygen demand) strength charge rate based on pounds of COD for that concentration of COD exceeding 700 mg/l.
2. Suspended solids strength charge rate based on pounds of suspended solids for that concentration exceeding 300 mg/l.

In accordance with Section S12p of the District's Ordinances, sewer user charge Late Filing/Sewage Evaluation Fees will remain at \$250.00 for the 2023 budget.

Additionally, Section S12x of the District's Ordinances provides for the Special Sewer Service Charge (a.k.a. The Special Sewer Service Charge is set annually in conjunction with adoption of the District Budget. Effective January 1, 2023, said charge shall be \$4.25 per hundred cubic feet (ccf) to be uniformly applied and to be proportional to the quantity of water used by District customers who utilize the District sewer system and are furnished water directly by the Metropolitan District. The Special Sewer Service Charge shall appear separately on the water bills of the District.

Liquid Waste Discharge Fee (other than Acceptable Septage): A fee is required as part of the approval from MDC for its acceptance, by whatever means, of the discharge of liquid waste other than Acceptable Septage, as provided by §S13b of the District's Sewer Ordinances. For example, but without limiting the forms of liquid waste subject to this fee, this fee shall apply to the following without limitation: groundwater; remediated groundwater; contaminated stormwater; contaminated

groundwater permitted through a CT DEEP Groundwater Remediation General Permit or other CT DEEP Miscellaneous General or Individual Permit; landfill leachate; process equipment condensate; groundwater used for process water including cooling water; discharges granted temporary authorization to discharge by CT DEEP; and stormwater discharged into a separated sanitary sewer system.

SEC. W1f SURCHARGE OUTSIDE THE METROPOLITAN DISTRICT FOR CAPITAL IMPROVEMENTS

In towns outside the limits of The Metropolitan District for which capital improvements or layout and assessment projects are constructed, in addition to the charges set forth in SEC. W1a, W1b and W1c, there shall be a surcharge on the water rates determined from the size of the meter installed on the premises, as follows:

1. On or before the end of each fiscal year, The Metropolitan District shall determine the actual cost of each capital improvement constructed for each non-member town and the net cost (cost less assessments) of layout and assessment projects constructed for each non-member town. The costs and/or net costs, as applicable, shall be allocated to the towns for which the work was performed and shall be a surcharge on the water rates of the users located in such towns.
2. The annual surcharge to be added to each user's water rate shall equal the total amount of the costs and/or net costs, as applicable, allocated to the town in which such user is located [excluding costs which the town has paid as set forth in Section W1f(3)] amortized over a twenty year period using an interest rate computed by the District which approximates the District's long-term cost of funds for its General Obligation Bond portfolio—multiplied by the percentage of hydraulic capacity of each user's meter size (based on the American Water Works Association meter size capacity) of the aggregate hydraulic capacity of all meters in such town. The surcharge shall be billed in either quarterly or monthly installments, as applicable, commencing with the first bill sent out in the fiscal year succeeding the fiscal year in which the work was performed and continuing over the twenty year period.
3. The District shall, as soon as possible after the completion of each capital improvement project or separate phase thereof, provide to the non-member towns for which a capital improvement was constructed a compilation of the costs associated with the construction of such project(s). If, on or before the end of the District's fiscal year in which such construction was completed, a non-member town agrees to pay and does in fact pay all or a portion of the cost of a capital improvement constructed for such town, then the amount paid by such town shall be deducted from the total amount of costs and/or net costs allocated to such town as described in Section W1f(1) and used to calculate the individual surcharges as set forth in Section W1f(2).

SEWER ORDINANCES:**§ S12X "SPECIAL SEWER SERVICE CHARGE FOR CAPITAL IMPROVEMENTS TO THE SEWERAGE SYSTEM"****SEC. S12x SPECIAL SEWER SERVICE CHARGE FOR ~~CAPTIAL~~ CAPITAL IMPROVEMENTS TO THE SEWERAGE SYSTEM**

~~a.)~~ (1) For customers of The Metropolitan District who utilize the District sewer system and are furnished water directly by The Metropolitan District there shall be a special sewer service charge at rates established annually through the budget approval process as set forth in Chapter 3 of the Charter of The Metropolitan District. Except as provided in subsection S12x(b), and S12x(c), and S12(d) said rates shall be uniformly applied to, and be proportional to the quantity of water used by, the affected customers.

~~b.)~~ (2) Notwithstanding the foregoing, The Metropolitan District may, through its annual budget, allow for a reduction in the special sewer service charge otherwise payable by owners of commercial or industrial properties in the event said properties, and the commercial or industrial operations located thereon, are serviced, in whole or in part, by an on-site wastewater collection, treatment, and disposal system that does not discharge into the sanitary sewage system of The Metropolitan District. The amount of said reduction shall be based upon the sewer usage metered and reported pursuant to Section S12e and determined by the Board of Commissioners of The Metropolitan District during its annual budget approval process for any ensuing year.

~~c.)~~ (3) Customers subject to the provisions of this Section 12x, other than customers subject to Subsection S12x(b) above, shall be subject to the special sewer

service charge as follows: 1) for the first 24,060 hundred cubic feet of water consumed from a single water meter per month, the special sewer service charge shall be assessed at the rate established by The Metropolitan District against each one hundred cubic feet of water consumed; and 2) for all water consumed in excess of 24,060 hundred cubic feet per month from a single water meter, the special sewer service charge shall be assessed at such rate against each one hundred cubic feet of sewer flow generated by the water used in excess of 24,060 hundred cubic feet per month metered at a location approved by the Metropolitan District. This excess sewer flow shall be calculated via the proportion of sewage discharged to water consumed for the month, with this proportion applied to the volume of water consumed in excess of 24,060 hundred cubic feet per month and billed pursuant to Section S12f. The special sewer service charge assessed pursuant to this subsection shall be billed monthly.

~~d.)~~ (4) The proceeds from the special sewer service charge, as aforesaid, shall be used exclusively for capital costs associated with any and all measures necessary to comply with: (a) a certain consent decree executed by and between The Metropolitan District and the United States Environmental Protection Agency in a case filed on August 15, 2006 in the United States District court for the District of Connecticut captioned United States of America and State of Connecticut vs. The Metropolitan District of Hartford, Connecticut; (b) and a certain consent order (Consent Order No. 5434) executed by and between The Metropolitan District and the State of Connecticut on or about November 6, 2006 relating to the reduction of combined sewer overflows; (c) the reduction of nitrogen discharged from District Wastewater Treatment Facilities as required by State of Connecticut Department of Environmental Protection Nitrogen General Permit issued December 21, 2005 October 5, 2018; and (d) a certain consent order (Consent Order No. COWRMU22002) executed by and between The Metropolitan District and the State of Connecticut relating to the implementation of an integrated planning concept dated September 12, 2022, as such decree and orders may be amended from time to time, and specifically for payment of capital expenditures in connection with compliance with the decree or orders, or payment of debt service on indebtedness of The District incurred for purposes of funding expenditures in connection with compliance with such decree and orders. For this purpose “indebtedness” shall mean bonds, notes and other loans and obligations, including, without limitation, State of Connecticut Clean Water Fund loans, and “Debt service” shall mean: (i) any obligation that would constitute “debt service” if incurred with respect to bonds issued under the special obligation indenture of trust, dated June 1, 2013, between The District and U.S. Bank National Association, as trustee, as amended and supplemented from time to time, as the term “debt service” is used in such indenture, whether or not such obligation is incurred with respect to indebtedness under such indenture; and (ii) any obligation of The Metropolitan District incurred in furtherance of compliance with Consent Order No. COWRMU22002, including, but not limited to, any indebtedness incurred or capital expenditures made pursuant to Public Act No. 15-114.

~~(e)~~ (5) The special sewer service charge shall appear separately on the water bills of the District and shall be due and payable at the same time as the water bills are due and payable. Collection and payment of such charge shall be subject to and in accordance with sections S12m, S12n, and S12o of this part.

RESOLUTION REGARDING COLEBROOK RESERVOIR

To: District Board

December 5, 2022

From: Scott W. Jellison, Chief Executive Officer

The Metropolitan District (“MDC”) entered into a certain contract entitled “REVISED CONTRACT BETWEEN THE UNITED STATES OF AMERICA AND THE METROPOLITAN DISTRICT FOR WATER STORAGE SPACE IN THE COLEBROOK RIVER RESERVOIR,” dated February 11, 1965 (the “Agreement”). In 2019, consistent with Connecticut caselaw, the MDC notified the United States Army Corps of Engineers that under the terms of the Agreement the life of the project had been completed and the District elected to terminate the Agreement and its water rights under said Agreement. The Connecticut Department of Health (“DPH”) has taken the position that such termination cannot occur until MDC obtains a permit to abandon the Colebrook River Reservoir as a water supply source pursuant to Connecticut General Statutes §25-33k. In response to this position, MDC filed a petition for declaratory ruling with DPH seeking a determination that Connecticut General Statutes §25-33k does not apply to its termination of the Agreement. In connection with this action, Save the Sound filed a “Request for Party or Intervenor Status” in which it raises several arguments in support of such Request, including that a finding in favor of the MDC will also lead to the elimination of state law protections over inactive drinking water sources, including those pertaining to source protection or watershed lands. The request has been granted.

Be It Resolved: that notwithstanding termination of the Agreement, the MDC retains rights to approximately 3.5 billion gallons of water within the Colebrook River Reservoir for riparian and hydroelectric uses; and therefore, MDC has not abandoned the Colebrook Reservoir and the MDC remains dedicated to protecting the watershed

lands surrounding both Colebrook Reservoir and the MDC's West Branch Reservoir; and be it further

Resolved: that MDC, as the second largest land owner in the State of Connecticut and to ensure the quality and safety of its drinking water for its customers, remains steadfast and vigilant in its stewardship and protection of its watershed lands, and has no intention to alter this approach in the future.
