CLOSEOUT OF WATER, SEWER, COMBINED & CLEAN WATER PROJECTS

To: Board of Finance for consideration on July 10, 2023

The following represents 29 Capital Projects and 5 Clean Water Projects for your review and approval to close. Capital projects listed here have been reviewed and staff has concluded that these projects have been completed, cancelled or had a change of scope to the project. As a result, the remaining funds are no longer required and we are now requesting that the funds be deauthorized.

Sewer projects that are deauthorized with a remaining balance will increase our ability to issue more debt by this balance, while water funded projects that are deauthorized do not affect our debt limit.

Clean Water projects have no remaining balances as any remaining balances have been liquidated and transferred to fund other projects.

A brief summary is below:
