

## CONSTRUCTION NOTICE

### WATER MAIN REPLACEMENT, METER PIT INSTALLATION AND SEWER SEPARATION, WORK TO BEGIN

#### Branford Street (between Coventry St and Blue Hills Ave) - Hartford

Beginning the **week of September 4th**, the Metropolitan District (MDC) and their contractor, VMS Construction Company, will be starting construction to replace existing watermains, services and install meter pits in advance of a sewer separation project planned for your neighborhood. Once the new watermain, meter pit and new water services are installed you will be contacted by MDC Staff to schedule a time for the meter to be relocated from inside your home to its new location. **During the meter relocation process, your water service may be temporarily interrupted for approximately 4-6 hours.** *An MDC Staff member will contact you in advance of the interruption in service.*

The purpose of the meter pit is to provide easier access to the meter and will eliminate the need to enter homes for meter readings or repairs. Please refer to the meter pit photo on the reverse side of this notice. Temporary restoration efforts will be fully restored to the same or better condition once the entire project has been completed.

Work hours will be Monday through Friday, 7:00AM to 5:00PM. The entire water & sewer project will take 2-3 months to complete. Further notifications will be provided throughout the duration of this project and in advance of the sewer separation phase of work.

**PROJECT OUTREACH MEETING: PLEASE JOIN US**  
**Thursday, August 31<sup>st</sup> at either 9:00AM or 5:00 PM**  
(at the corner of Branford Street and Colton Street)

Project staff will be available to discuss the work planned and answer questions. We can also schedule a time to coordinate the meter pit installation for your property.

Schedules are subject to change based on weather or unforeseen construction related activities. All MDC Staff, Contractors and Consultants must be properly identified and present ID upon request.

**If you have questions or concerns, please contact:**
