### WATER MAIN AND METER PIT INSTALLATION

#### Durham Street, Hartford

The MDC and their contractor, VMS Construction, will be working to install a new water main and private property meter pits on Durham Street between Lyme Street and Palm Street. (July 17<sup>th</sup> to Mid August).

**This work is in advance of the sewer separation work occurring between Granby Street and Palm Street.**

MDC Staff will be available to discuss the planned work and answer your questions. We can also schedule a time to coordinate the water meter pit installation for your property. Our goal is to keep you informed and work with you throughout the construction process. We want you to understand the improvements we will be making in your street and connections to your home. Your participation and cooperation will allow us to stay on schedule and minimize disruption to your daily activities.

**Please stop by to meet our team, learn about the project and planned improvements. If you are unable to attend, you will be contacted by a staff member to coordinate the water meter pit work planned for your property.**
