CONSTRUCTION NOTICE

SEWER SEPARATION PROJECT UPDATE

(Durham Street - Hartford)

The Metropolitan District (MDC) and their Contractors have substantially completed the first phase of work of the Sewer Separation Project and will be starting phase 2 in the coming weeks. The activities planned for the next phase include: connecting the stormwater discharges from your property to the new storm main, completion of house connection lining to the interior plumbing drain and any remaining sewer back up prevention protection for basement fixtures.

These construction activities will require access to your basement, digging on your property and final restoration. **MDC staff will meet with each homeowner to review and discuss all proposed plans and actions prior to any work taking place on private property.** We are requesting that you contact us to schedule your appointment within two weeks of receiving this notice.

TO SCHEDULE YOUR APPOINTMENT PLEASE CALL

MDC Utility Services at (860) 278-7850 ext. 3780

Please mention that your appointment is for the
“Durham Street Sewer Separation Project”

Restoration is the final phase of work and will be conducted once all major components of work are complete. These activities include, street paving and sidewalk repairs, landscaping and lawn re-establishment, as well as addressing any internal work that was disturbed by construction.

Some work activities, such as completion of house connection lining, require an interruption in service that can last 6-8 hours. Coordination with each property and advance notice will be provided prior to any service disruption. Additional project updates also will be provided as work progresses. ***The MDC appreciates your continued support in allowing us to complete this critical work.***

Work hours will be Monday through Friday, between 7:00 am and 5:00 pm.

Schedules are subject to change based on weather or unforeseen construction related activities. All MDC Staff, Contractors and Consultants must be properly identified and present ID upon request.

If you have questions or concerns, please contact:

Todd Cormier, MDC Project Manager
