# CONSTRUCTION PROJECT UPDATE

## Westland & Garden Street Area Sewer Separation Project

### **VIRTUAL STAKEHOLDER MEETING: June 5<sup>th</sup> 10:00AM**

The Metropolitan District (MDC) has been working on the **Westland and Garden Street Area Sewer Separation** project in your neighborhood for the last several months. This project is designed to upgrade the sewer infrastructure by separating the combined (sewer and stormwater) system. Activities include open dig construction to install new sewer and/or storm mains, sewer lining and rehabilitation and new service connections to each property.

**In the coming weeks, we will begin work in the Westland, Garden and Love Lane intersection.** Initially you will see mobilization of equipment, some open dig work and bypass pump installation. These preliminary activities prepare us for the installation of the new infrastructure. Due to the nature of the work, and length of time necessary to complete it, temporary detours and road closures will be in place to accommodate work zones.

Our goal is to reduce impacts to residents and businesses in the area while construction is underway so keeping you informed is an important component to the success of our work.

### **Virtual Stakeholder Meeting – Please Join Us**

Prior to starting construction, we would like to invite you to a virtual meeting on **Thursday, June 5<sup>th</sup> at 10:00 AM** to discuss the upcoming work, introduce you to the project team, and answer any questions that you may have. We understand your business is in the construction area or close to it, so your input is critical to us.

If you can provide us with your email address a meeting invitation will be sent to you for the **June 5<sup>th</sup> Stakeholder Meeting**. If you are unable to join virtually, you can call in to the meeting: **Join by phone:** 1 (415) 655-0001 Enter meeting code: 173243268

### **If you have questions or concerns, please contact:**

Ed Larrow, Construction Supervisor (860) 818-7182
