COMMITTEE ON ORGANIZATION
APPOINTMENT OF INTERIM CHIEF FINANCIAL OFFICER AS
DISTRICT TREASURER

To: District Board

From: Committee on Organization

April 1, 2019

At the special meeting of the Committee on Organization held on April 1, 2019, it was:

Voted: That the Committee on Organization recommends to the District Board, passage of the following resolution:

Resolved: That the District Board, in accordance with Section 2-8 of the District Charter, hereby designates Christopher P. Martin as the District Treasurer of The Metropolitan District effective April 1, 2019, to serve until a successor shall have been named and qualified.

Respectfully submitted,

John Mirtle, Esq.
District Clerk
To: District Board

From: Bureau of Public Works

April 1, 2019

The sewers outlined in the following resolution have been constructed under Developer’s Permit-Agreement in accordance with the plans, specifications and standards of the District, and the Director of Engineering has certified to all of the foregoing.

At a meeting of the Bureau of Public Works held on March 13, 2019, it was:

RECOMMENDED that, pursuant to Section S8g of the Sewer Ordinances re: “Acceptance of Developer’s Sewers,” it be

Voted: That the Bureau of Public Works recommends to the District Board passage of the following resolution:

Resolved: That, in accordance with Section S8g of the District Ordinances, the following is incorporated into the sewer system of The Metropolitan District as of the date of passage of this resolution:

John S. Mirtle, Esq.
District Clerk
SHEPARD DRIVE, NEWINGTON
ENCROACHMENT AGREEMENT

To: District Board

From: Bureau of Public Works

April 1, 2019

In a letter dated November 20, 2018, J. Patrick Holmes of Burns & McDonnell, on behalf of Eversource, has requested permission from The Metropolitan District to encroach on the existing 20-foot sanitary sewer easement located across private lands east of Willard Avenue and on Shepard Drive, with an underground electric duct bank as part of their Greater Hartford – Central Connecticut Reliability Project to improve the electric transmission system.

The proposed work entails the installation of the duct bank under the existing 10-inch plastic styrene sanitary sewer within the 20-foot easement, as shown on the accompanying map. The proposed piping will be installed below the existing sanitary sewer while being temporarily supported and with sufficient clearance between the pipes. The existing trunk sewer was built in 1966.

MDC staff has concluded that the encroachments are minor and that there will be no detriment to the sewer infrastructure as a result.

Eversource has agreed to the following conditions in order to satisfy the District’s concerns for protection of the existing sanitary sewers located within the subject parcel and to maintain accessibility along the length of the Metropolitan District’s 20-foot easement:

1. Care must be taken during the construction of the new duct bank not to disturb the existing sanitary sewer. All heavy construction equipment must be located outside of the limits of the sewer easement when not in use. Any earth moving equipment that will be utilized on the site over and adjacent to the existing sewer shall be reviewed and approved by District staff prior to mobilization to the site. Any damage to the existing sewer caused by any construction within the existing rights-of-way shall be the responsibility of the Owner.

2. No additional permanent improvements, other than the proposed duct bank shall be located within the District’s sanitary sewer right-of-way.

3. The District reserves the right to remove improvements within the sanitary sewer easements at any time if so required for maintenance, repair or replacement of the sewer. The Owner shall bear any additional maintenance, repair or replacement costs necessitated by the presence of improvements within the easements.
4. In the event of a sewer emergency caused by the proposed excavation, the Owner shall provide, install, operate and remove, at the Owner’s expense, an appropriately sized bypass pump and appurtenances.

5. An MDC inspector must be on the job site whenever work is being performed within the sanitary sewer right-of-way, at the expense of the Owner. Any construction, maintenance, repair or replacement of the new duct bank shall conform to District standards and 48-hours advance notice must be given to the District prior to commencing any such activities within the sanitary sewer easement.

6. The Owner shall perform a CCTV inspection, witnessed by an MDC inspector, of the existing sanitary sewer in the areas of the construction upon completion of backfilling and restoration of the excavated areas. The videos will be delivered to the District for the purposes of assessing the post activity condition of the sanitary sewer.

Staff has reviewed this request and considers it feasible.

A formal encroachment agreement shall be executed between Eversource and the Metropolitan District, consistent with current practice involving similar requests.

At a meeting of the Bureau of Public Works held on March 13, 2019, it was:

VOTED: That the Bureau of Public Works recommends to the District Board passage of the following resolution:

RESOLVED: That the Chairman or Vice Chairman of the District Board be authorized to execute an agreement, subject to approval of form and content by District Counsel, granting permission to Eversource to encroach upon the existing 20-foot sanitary sewer easement east of Willard Avenue, on Shepard Drive and in private lands, Newington, in support of the planned construction of an electric duct bank as shown on plans submitted by Eversource entitled “Improvement Location Survey – Proposed Showing Proposed Encroachment Over Existing MDC Easement #53-55 Shepard Drive, Newington, CT”, dated 09/10/2018, providing that the District shall not be held liable for any cost of damage of any kind in the following years as a result of the encroachment.

Respectfully submitted,

John Mirtle

RE: Eversource Newington Substation to Southwest Hartford Substation Electric Transmission Line Project in Connecticut

Dear Mr. Curley:

The Connecticut Light and Power Company doing business as Eversource Energy ("Eversource") is submitting a request for an encroachment permit at the end of Shepard Drive from The Metropolitan District in support of the Greater Hartford – Central Connecticut Reliability Project (GHCCRP).

This submittal includes:
- Detailed plans for proposed construction
- A $125.00 check for administrative fees
- An encroachment map detailing the exact location of the encroachment
- Temporary and permanent construction plans

GHCCRP was approved by the Connecticut Siting Council (CSC) on February 1, 2018. To improve the reliability of the electric transmission system in the Greater Hartford and central Connecticut area, Eversource will construct, operate and maintain a new 115-kV transmission line and make related improvements to the two existing substations and an existing 115-kV line tap into one of the substations. Underground duct bank installation associated with the project will take place in the Town of Newington and the City of Hartford.

Eversource has been in direct coordination regarding this easement with Richard Norris, The Metropolitan District Project Manager, throughout final design of the underground duct bank alignment. Eversource offers to schedule a conference call with The Metropolitan District representatives, or to meet at a location convenient for The Metropolitan District to answer questions and provide any additional information that would assist in reviewing the construction contained in this submittal. Please let me know if, or if not, a conference call or meeting would be beneficial. I can be contacted by telephone at 860-209-5900, or by email at jholmes@burnsmcd.com.

Sincerely,

J. Patrick Holmes
Project Manager

WATER BUREAU
CHERRY BROOK - RESERVOIR 6 SECTION II PIPELINE RIGHT-OF-WAY
REALIGNMENT OF FISHER DRIVE AND BICKFORD DRIVE, AVON
ENCROACHMENT AGREEMENT

To: District Board

From: Water Bureau

April 1, 2019

On December 10, 2018, the Bureau recommended the passage of a resolution to
the District Board, which subsequently authorized the execution of an agreement
granting permission to Avon Town Center LLC to encroach upon the Cherry Brook –
Reservoir 6 Section II Pipeline 100-foot raw water right-of-way to provide access for the
realignment of the intersection of Fisher Drive and Bickford Drive and the construction
and/or installation of other associated improvements for Phase 1 of the Avon Village
Center mixed use development project, as shown on the accompanying map
(collectively, the "Resolution and Authorization").

The purpose of this encroachment is to allow for the realignment of the
intersection of Fisher Drive and Bickford Drive, to include placement of water mains,
storm drains, gas mains, sanitary sewer pipe, concrete sidewalks, granite curbing, light
poles, rip rap, a concrete culvert end, a bituminous concrete path and grading within the
right-of-way (hereinafter collectively referred to as the "Improvements").

The work associated with these Improvements will affect two (2) parcels of land
known as 65 Simsbury Road and 70 Ensign Drive. These two (2) parcels are owned by
Avon Town Center LLC and Avon Town Center III LLC, respectively. The Resolution
and Authorization, therefore, need to be amended to include both of these property
owners.

At a meeting of the Water Bureau held on March 13, 2019, it was:

VOTED: That the Water Bureau recommends to the District Board passage
of the following resolution:

RESOLVED: The term Owner as set forth in the Resolution and Authorization
shall mean Avon Town Center LLC and Avon Town Center III LLC,
collectively.

RESOLVED: That the Chairman or Vice Chairman of the District Board be
authorized to execute an agreement, subject to approval as to form and
content by District Counsel, granting permission to Avon Town Center LLC
and Avon Town Center III LLC, (collectively, "Owner") to encroach upon
the Cherry Brook – Reservoir 6 Section II Pipeline 100-foot raw water
right-of-way located across Fisher Drive, Bickford Drive and private lands,
west of Route 10 in Avon, for the purpose of installing water mains, storm
drains, gas mains, sanitary sewer pipe, concrete sidewalks, granite
curbing, light poles, rip rap, a concrete culvert end, a bituminous concrete
path and grading for the intersection realignment of Fisher Drive and Bickford Drive, Avon, provided that the District shall not be held liable for any costs or damages of any kind which may result during initial construction or in the following years with respect to any subsequent construction, maintenance or repair as a result of such encroachment. Once the aforementioned agreement is fully executed by the District and Owner, the District shall record the same on the Avon Land Records, and Owner hereby consents to and approves of such recording.

Respectfully submitted,

John S. Mirtle, Esq.
District Clerk
WATER BUREAU
APPOINTMENT OF WATER BUREAU COMMISSIONER REPRESENTATIVE TO THE
HOGBACK WATERSHED RECREATION COMMISSION

To: District Board
From: Water Bureau

April 1, 2019

At a meeting of the Water Bureau held on April 1, 2019, it was:

VOTED: That the Water Bureau recommends to the District Board passage of the following resolution:

RESOLVED: That the Water Bureau appoint Commissioner Avery Buell to serve on the Hogback Watershed Recreation Commission.

Respectfully submitted,

John S. Mirtle, Esq.
District Clerk
PROPOSED ADDITION TO THE GENERAL ORDINANCES
OF THE METROPOLITAN DISTRICT

To: District Board

From: MDC Staff

April 1, 2019

District staff, through the Office of District Counsel, submits the addition of Section G8h, “Ratification of Unauthorized Commitments,” to The Metropolitan District General Ordinances for referral to and consideration by the Committee on MDC Government.

G-8h  RATIFICATION OF UNAUTHORIZED COMMITMENTS
PART 8, PROCUREMENT POLICIES

Section  Section Title

G8h  Ratification of Unauthorized Commitments

SEC. G8h  RATIFICATION OF UNAUTHORIZED COMMITMENTS

Pursuant to the authority granted to the District under Section 2-13 of the Compiled Charter of The Metropolitan District, and upon determination by the Chief Executive Officer or his or her designee that certain circumstances warrant, the District shall be allowed to ratify an Unauthorized Commitment (“UC”) (as hereinafter defined).

A UC is an “agreement that is not binding solely because the District employee or representative who made it lacked the authority to enter into that agreement on behalf of the District.” “Ratification” is defined as the “process by which a UC is formalized, approved and paid.” The “ratifying official” as used herein shall mean the Director of Procurement, or another District employee at the same or higher level thereof as designated by the District CEO to be the ratifying official with the authority as delegated by such CEO to ratify a UC.

Ratification of a UC shall only occur when utilizing the following procedure and meeting all of the conditions thereunder:

1. Supplies or services have been provided to and accepted by the District, or the District otherwise obtained or will obtain a benefit resulting from performance of the UC;

2. The ratifying official has the authority to enter into a contractual commitment;

3. The resulting contract would otherwise have been proper if made by authorized District personnel consistent with District ordinances, by-laws, procedures and signing authorizations;
4. The ratifying official reviewing the UC determines the price to be fair and reasonable;

5. The ratifying official recommends ratification and legal counsel concurs with that recommendation;

6. Funds are available and were available at the time the UC was made; and

7. The ratification is in accordance with any other limitations prescribed under District ordinances, by-laws, procedures and signing authorizations.

Failure to meet any of the above requirements will result in a non-ratifiable UC. The appropriate disciplinary action, if any, will be taken against the District personnel who entered into such UC irrespective of whether a UC is ratified or not. A decision not to ratify an UC may not result in unjust enrichment to the District.

The Director of Procurement shall establish specific implementation protocols in order to implement the above Ratification of Unauthorized Commitments procedure, subject to any applicable federal or state law or regulation.

Respectfully submitted,

John S. Mirtle, Esq.
District Clerk
