Sewer Separation Project and Sewer Backup Prevention

For Durham Street, Woodstock Street & Branford Street Residents

The MDC and their contractors, Coastline Construction and VMS, are hosting a project outreach meeting for residents and property owners on October 24th. Come meet members of the project team, learn about the work planned for your neighborhood and property and take advantage of FREE services that will be offered to protect your home from sewer backups.

MDC Staff will be available to discuss the planned work and answer your questions. Our goal is to keep you informed and work with you throughout the construction process. We want you to understand the improvements we will be making in your street and to your home. Your participation and cooperation will allow us to stay on schedule and minimize disruption to your daily activities.

We hope to see you there!

If you are unable to attend, please contact your neighborhood Outreach Liaison for more information.
