**BUREAU OF PUBLIC WORKS
BAKER HOLLOW ROAD, WINDSOR
DEVELOPER’S PERMIT AGREEMENT AND REQUEST FOR
REIMBURSEMENT AGREEMENT**

To: District Board

September 9, 2024

From: Bureau of Public Works

On December 19, 2022, The Metropolitan District received an application from the town of Windsor, through its Town Engineer, Robert Jarvis, P.E., requesting permission for the Town, acting as the Developer, to construct, at its expense under a Developer’s Permit-Agreement, approximately 1,626 feet of 10-inch sanitary sewer, manholes and laterals in a portion of Baker Hollow Road, from 105 Baker Hollow Road east to Marshal Phelps Road. The sewer is being constructed as part of the Baker Hollow Road Reconstruction Project, in part to promote commercial, business and industrial development along that portion of Baker Hollow Road.

By virtue of this proposed sanitary sewer passing by property of others, a public hearing or waivers for a public hearing were required under Section S1d of the District’s Sewer Ordinances. The waivers were received from the three affected property owners on June 5, 2023.

The Developer, the Town of Windsor, has requested reimbursement of the MDC’s linear foot frontage charge (presently, \$110.50 per linear foot of frontage, but subject to change) collected by the District for future connections to the Town-built sewer by other property owners along Baker Hollow Road, as provided for in Section S7n of the District’s Sewer Ordinances. The reimbursement only applies to connections over the next ten years, and the aggregate reimbursement amount will not exceed the certified cost of construction of said sanitary sewer and appurtenances, as confirmed by affidavit submitted by the Town of Windsor.

The Bureau of Public Works has in the past granted member towns permission to construct sanitary sewers in targeted areas to promote development, and in conjunction therewith, has granted to said towns reimbursement for its costs in

accordance with Ordinance (S7n), thus providing the towns with a method of recovering a portion of their construction costs for the sanitary sewer installation.

At a meeting of the Bureau of Public Works held on August 21, 2024, it was:

Voted: That permission be granted to the Town of Windsor to construct, under a Developer's Permit Agreement, approximately 1,626 feet of 10-inch sanitary sewer and appurtenances in a portion of Baker Hollow Road, in accordance with plans approved by the Director of Engineering and Planning, which sanitary sewer and appurtenances are to be incorporated into the public sewer system when accepted by the Metropolitan District, provided that, prior to construction, as has been allowed in the past with other member towns developing sewers, no payment for outlet charges will be declared due and payable prior to construction of said sewer; however, all lands abutting the said sewer be subject to monetary charges in effect at the time of development or connection; and that the Developer has eleven months from the date of the Bureau action to enter into and execute the Developer's Permit-Agreement.

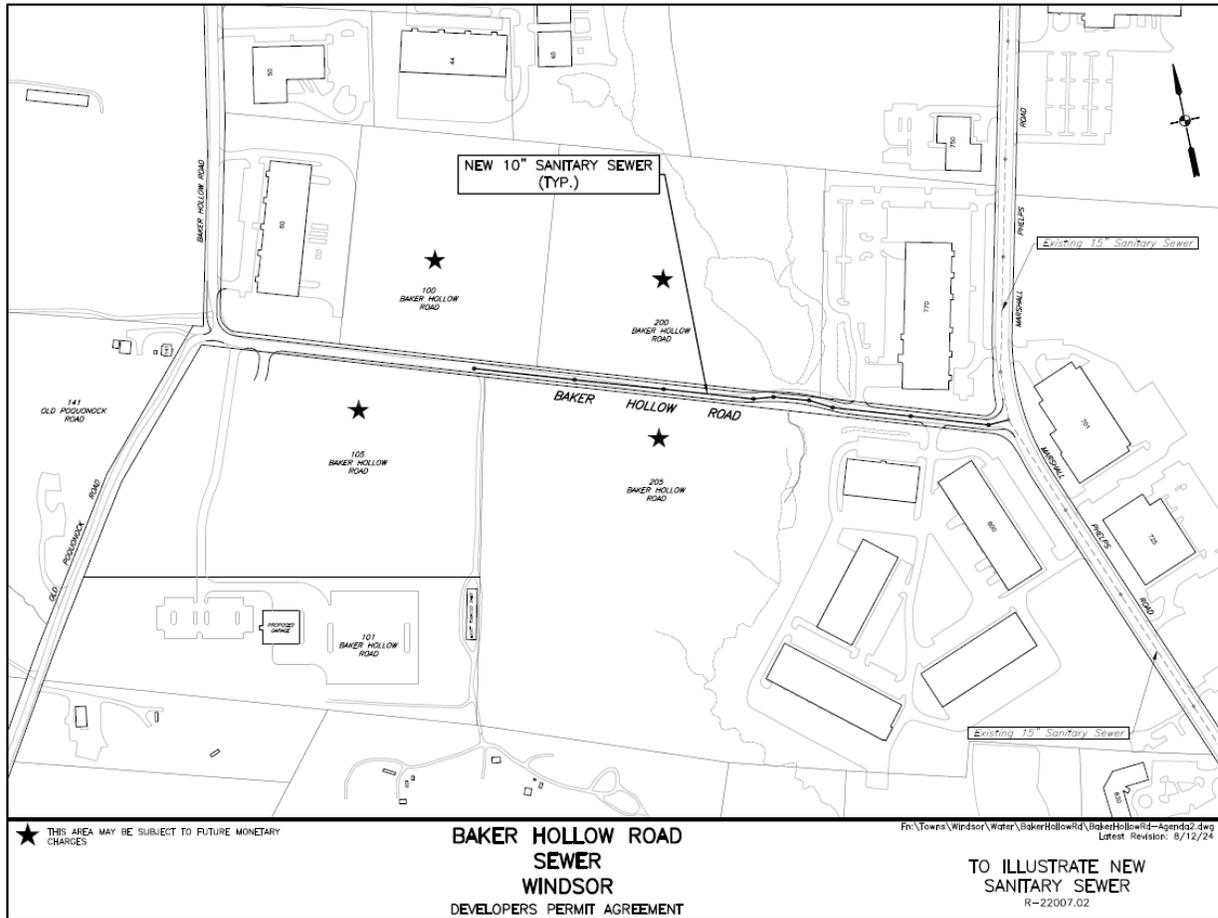

And

Voted: That, pursuant to Section S7n of the District's Sewer Ordinances, the Developer's Permit-Agreement shall provide for reimbursement from the District to the Developer for a ten (10) year period of the frontage charge component of any connection charges collected, on land directly connected to this proposed sanitary sewer, and reimbursable under said above- referenced Ordinance. Said frontage charge component shall be computed at the rates in effect at the time a connection charge agreement is executed.

District Clerk

**BUREAU OF PUBLIC WORKS
ENCROACHMENT AGREEMENT
WILSON PARK, WINDSOR**

To: District Board

September 9, 2024

To: Bureau of Public Works

On August 7, 2024, Suzanne Choate, P.E., Town Engineer of the Town of Windsor (“Owner”), requested an amendment be made to the previously approved resolution to grant permission from The Metropolitan District (“MDC” or “District”) to encroach on the MDC’s existing 20-foot-wide Deckers Brook Trunk Sewer easement or right-of-way, encompassing an existing 15-inch and 12-inch sanitary trunk sewer and its appurtenant infrastructure (collectively, the “Sewer”), situated on the Property (“ROW”) for the purpose of constructing and installing site improvements for and in connection with the Wilson Park Revitalization Project (the “Project”). This encroachment was previously approved by the BPW at a meeting held on March 4, 2024, the activities for which encroachment are shown on the attached map (the “Map,”

and such BPW approval is hereinafter referred to as the “Prior Approval”). This request is to include the installation of an additional electrical conduit within the District’s ROW.

The proposed new work for the Project entails the installation of one (1) additional (4) four-inch electrical conduit as shown on the accompanying map (collectively, the “Improvements”). The Sewer was built in 1947 and 1949, and was rehabilitated in 1998.

MDC staff has concluded that the Improvements are minor and that there will be no detriment to the Sewer as a result, provided all the terms and conditions for these Improvements set forth in the Prior Approval and this resolution are complied with by Owner and any other party authorized by Owner to perform such Improvements.

Accordingly, a formal written encroachment agreement shall be entered into and executed by the Owner and the District, which agreement shall include the above conditions and any other conditions set forth herein, and filed on the Town of Windsor Land Records.

At a meeting of the Bureau of Public Works held on August 21, 2024, it was:

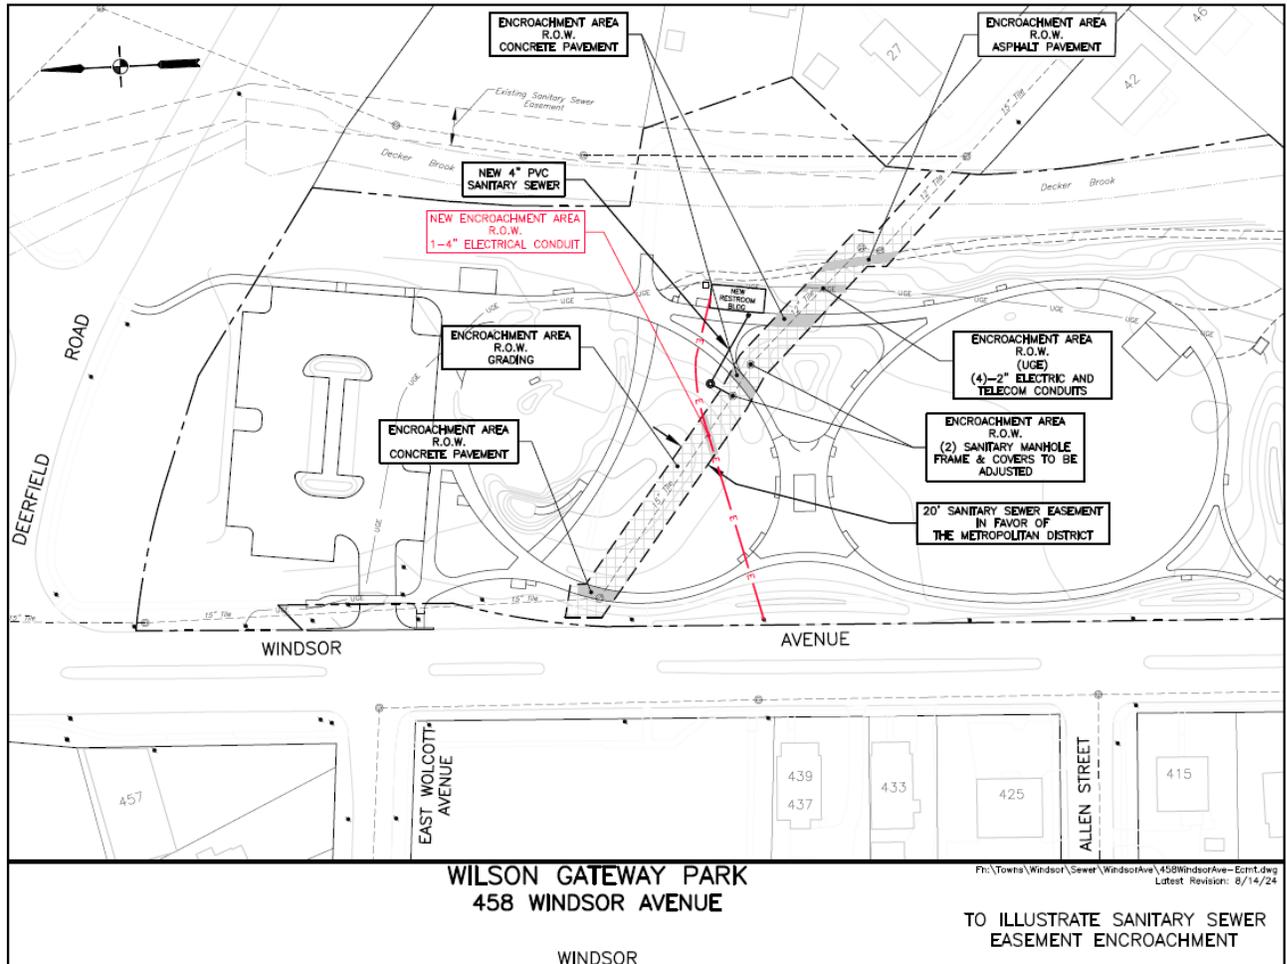

VOTED: That the Bureau of Public Works recommends to the District Board passage of the following resolution:

RESOLVED: That the Chairman or Vice Chairman of the District Board be authorized to execute an agreement, subject to: (i) all the terms and conditions for the Improvements in the Prior Approval, which terms and conditions are hereby incorporated into and made a part of this resolution, as well as: (ii) approval of form and content by District Counsel, granting permission to Owner to encroach upon the existing 20-foot sanitary sewer easement situated on the Property in order to: (i) perform the work for the Improvements in connection with the Project as shown on the plan submitted by BSC Group entitled “Wilson Gateway Park, 458 Windsor Avenue (CT-159) in Windsor, Connecticut, Restroom Add Alternate Plan (Alternate #1), October 1, 2023, Prepared for Town of Windsor, 275 Broad Street, Windsor, CT 06095”, Sheet L-4.5, and the plan submitted by Eversource dated 7/29/2024, “Address: 458 Windsor Ave, WO# 18041424, Town: Windsor, Sheet: 1 of 1”, and (ii) maintain, repair and replace such Improvements, provided that: (a) the District shall not be held liable for any cost or damage of any kind and be indemnified from any claims from the present and in the following years as a result of any encroachment authorized hereby, (b) Owner shall obtain all required approvals and reimburse MDC for any attorney fees and other costs incurred by MDC in enforcing the encroachment agreement, and (c) such agreement shall not be effective until fully executed by the District and Owner, and recorded on the Windsor Land Records. In the event that such full execution and recording does not occur within three (3) months of the date this resolution is passed by the District Board, then such resolution shall be null and void, and of no further force and effect.

Respectfully submitted,

John Mirtle

John S. Mirtle, Esq.
District Clerk

On motion made by Commissioner Hoffman and duly seconded, the reports for items #10A "Reimbursement Agreement with Town of Windsor – Baker Hollow Developer's Permit Agreement", 10B "Encroachment Agreement – Wilson Park, Windsor" were received and resolutions adopted by unanimous vote of those present.

**WATER BUREAU
BAKER HOLLOW ROAD, WINDSOR
CLASS 1 WATER MAIN EXTENSION AND REQUEST FOR
REIMBURSEMENT AGREEMENT**

To: District Board

September 9, 2024

From: Water Bureau

On December 19, 2022, your staff received a petition from the town of Windsor, through its Town Engineer, Robert Jarvis, P.E., for the town to construct, under a Developer's Permit-Agreement ("DPA"), approximately 2,280 feet of water main in a portion of Baker Hollow Road, Windsor, to serve future development along Baker Hollow Road as part of the Baker Hollow Road Reconstruction Project.

The Town of Windsor, the Developer of this project, will be responsible for all costs associated with the construction of the water main, which, and once completed, would likely be accepted by the District and incorporated into our water distribution system. The water main will be available to serve a number of privately-held properties along Baker Hollow Road. Any property owners that want to connect to the water main must pay the District a frontage charge, or Class I fee (presently \$95.00 per linear foot of frontage, but subject to change) intended to offset the costs incurred if the District constructed the water main. In this case, however, the District would not incur any such construction costs. As such, and as part of its application for a DPA, the Developer has requested that the District enter into a Reimbursement Agreement providing that any Class I payments received by the District within ten years of the completion of the water main be turned over to the Developer, the party which incurred the costs and arguably entitled to the reimbursement. The aggregate reimbursement amount would not exceed the certified cost of construction of said water main and appurtenances, as attested to in an affidavit submitted by the Town of Windsor.

This reimbursement process has been used in the past on Class I water mains built by and at the expense of others. Section W4h of the District Water Ordinances authorizes agreements with developers to construct Class I water mains subject to terms "...*mutually determined an agreed upon.*"

It should be noted that this reimbursement process is more specifically authorized for sewer mains constructed by developers under Section S7n of our Sewer Ordinances.

At a meeting of the Water Bureau held on August 21, 2024, it was:

VOTED: To authorize the installation of about 2,280 feet of 12-inch ductile iron (Class 54) water main in a portion of Baker Hollow Road from 105 Baker Hollow Road east to Marshal Phelps Road, as a Class I Distribution Main.

AND

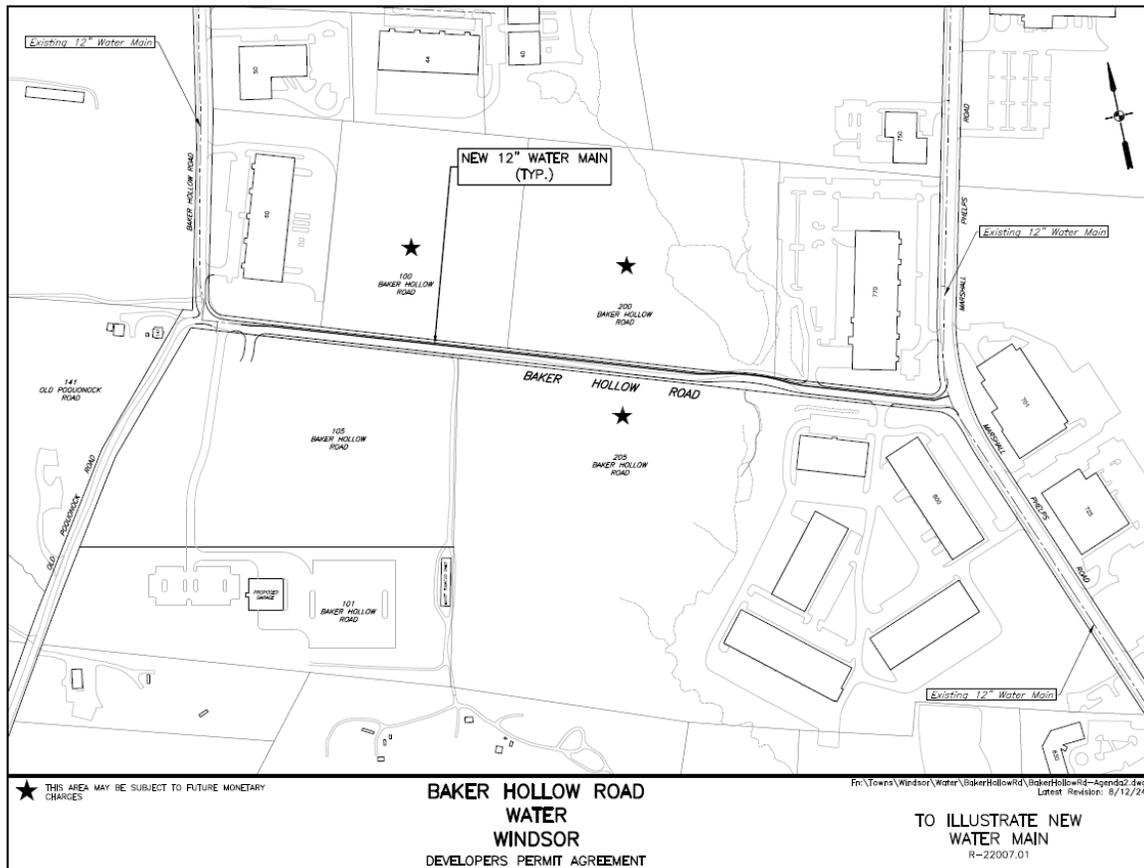

VOTED: To authorize the Chairman or Vice Chairman to execute a Reimbursement Agreement with The Town of Windsor, for the return of any Class I

payments the District may receive within a ten-year period from the date of said agreement from land owned by others along this extension, to a maximum of the actual construction costs of this extension.

OPPORTUNITY FOR GENERAL PUBLIC COMMENTS

Judy Allen, West Hartford Resident, stated she was appalled at the behavior in some recent committee meetings. She expressed that personal conflict does not have a place in public meetings and that transparency does not mean airing grievances in public. She suggested that Commissioner bring any issues to Chairman Currey if they can not be worked out. Judy also mentioned that she was surprised there was not a discussion regarding the climate study at tonight’s meeting, since this topic generated a long discussion at the committee level.

Alma Elder, member of the 3rd Act, spoke regarding the Durham Street project. She was surprised by the total cost of the project.

COMMISSIONER REQUESTS FOR FUTURE AGENDA ITEMS

Commissioner DiBella requested a point of personal privilege which was granted by Chairman Currey. Commissioner DiBella thanked the District Board for their notes and messages that he received after his sister recently passed away.

Commissioner Pane thanked the MDC staff for all of the work that they do. He thanked the staff that work at the HWPCF for running the plant and maximizing income for the District.

Commissioner Avedisian thanked the MDC staff. He also thanked the CEO and MDC staff for helping a resident on Capen Street who thought there was an issue caused by MDC work, but later determined to have carbon monoxide poisoning. He stated that staff did a phenomenal job identifying the problem.
