To: District Board

From: Board of Finance January 7, 2013

Staff is seeking authority for the District to issue up to $58,928,000 in new general obligation bonds that will refund $58,928,000 in existing bond anticipation notes due on February 14, 2013, to be divided into two series, Series A for CIP projects and Series B for the District Clean Water Project.

Bond counsel prepared the following resolution for consideration by the Board of Finance:

At a meeting of the Board of Finance held on January 7, 2013, it was:

Voted: That the Board of Finance recommends to the District Board passage of the following resolution:

RESOLUTION AUTHORIZING THE ISSUANCE AND SALE OF NOT EXCEEDING $58,928,000 IN GENERAL OBLIGATION BONDS OF THE METROPOLITAN DISTRICT

Not exceeding $58,928,000 Metropolitan District General Obligation Bonds (the "Bonds") are hereby authorized to be issued in two series, Series A for capital improvement projects and Series B for the District Clean Water Project, to currently refund up to $58,928,000 Bond Anticipation Notes of the District maturing February 14, 2013(the "Outstanding Notes") and to fund such portion of the authorized and unissued balances of the capital appropriations contained in certain bond resolutions adopted to finance capital budget items enacted by the District Board in the years and in the amounts set forth on Exhibit A hereto attached. By way of background, in 1946, the District acquired 2204 acres of land within the Barkhamsted Reservoir watershed in Tolland, MA from Tunxis Estates for $25,300. As part of the agreement, the District executed a 25-year lease of this land to Tunxis Estates and granted exclusive hunting, fishing, and associated rights to the Tunxis Estates, with the District retaining the right to harvest timber from the property.

In 1966, the District approved a request from the Tunxis Club, Inc., the successor to Tunxis Estates, to extend the original lease term for an additional 25 years beyond the original expiration date in 1971, under the same terms and conditions, with the exception of the inclusion of an annual rent equal to the amount of taxes levied each year on the leased property. At that time, the District was paying approximately $1,300 in taxes on the parcel. Currently, the amount of taxes levied and reimbursed to the District by the Tunxis Club, Inc. is $7,368.60.

A second amendment, negotiated upon the expiration of the extended term and executed in 1997, extended the term to September 5, 2003, and provided for automatic renewal for four (4) additional five-year periods, unless terminated by either party by written notice no less than six months prior to the expiration of any five-year term. The second automatic five year renewal period will expire on September 5, 2013, and therefore if the District decides not to renew the lease for another five year term, written notice of this decision must be provided on or before March 5, 2013.

At a meeting of the Water Bureau held on January 7, 2013, it was:

VOTED: That the Water Bureau of the Metropolitan District recommends to the District passage of the following resolution:

RESOLVED: That the lease agreement between the District and the Tunxis Club, Inc. of 2204 acres of land in Tolland, Massachusetts be terminated as of September 5, 2013, and that notice of termination be forwarded to the Tunxis Club, Inc. on or before March 5, 2013, in form and substance approved by District Counsel, provided, staff is directed, notwithstanding said termination, to negotiate with the Tunxis Club, Inc. on an extension of the lease beyond September 5, 2013 upon such terms and conditions as are acceptable and approved at a subsequent meetings of the Water Bureau and the District Board.

CONTRACTUAL SERVICES - DURATIONAL PROJECT MANAGER

From: Personnel, Pension & Insurance Committee

To: District Board March 4, 2013

At its meeting held on June 9, 2008, the District Board authorized the PPI to develop and implement contracted positions to serve as Durational Project Engineers for the District. These positions have been utilized by PMU and Engineering in order to acquire, as needed, temporary technical expertise and engineering project management skills and competencies and include highly technical engineering design, project management and monitoring. The duration for these positions shall be three years with the option of extending the duration for an additional two years.

Recently, there has been a demonstrated need to expand the scope of these durational services to other than engineering services, such as information technology. In order to provide the District with the flexibility to address this management need, the PPI recommends to the District Board that the limitation of the use of durational project engineers to the engineering function be removed, and that the individuals providing these specialty services, including those retained to date, be re-categorized as "Durational Project Managers."

It is further recommended that the compensation for Durational Project Managers not exceed $160,000 annually, exclusive of any cost of living adjustment otherwise afforded exempt and excluded employees. As contracted positions, Durational Project Managers shall not be eligible for pension benefits, leave time or other benefits afforded classified District Employees. Health benefits may be considered in the negotiation of annual payments.

At a meeting of the Personnel, Pension and Insurance Committee held on February 4, 2013, it was

Voted: That the Personnel, Pension and Insurance Committee recommend to the District Board passage of the following resolution:

Resolved: That the position of Durational Project Engineer be changed to Durational Project Manager, eliminating the limitation on the scope of services that may be provided, and said Durational Project Manager position is considered a contracted position in order to acquire as needed temporary highly technical project management and monitoring. PERSONNEL, PENSION & INSURANCE COMMITTEE
MODIFICATION TO VACATION TIME ALLOTMENT FOR DEPUTY CHIEF OFFICERS

To: District Board

From: Personnel Pension & Insurance Committee April 8, 2013

Historically, the District has maintained parity among its deputy chief executive officers in their respective benefit package, including the annual allotment of vacation time. In January 2013, the District Board, upon recommendation of the Personnel, Pension and Insurance Committee, approved a benefit package for the Chief of Program Management that included four (4) weeks of vacation annually, effective immediately. Presently, the two other deputy chief executive officers are allotted three (3) weeks of vacation annually.

In order to provide each of these positions with the same vacation benefit, it is the recommendation of staff that the Deputy Chief Executive Officer of Engineering & Operations and the Deputy Chief Executive Officer of Business Services be awarded an additional week of vacation beginning in calendar year 2013, for a total of four (4) weeks annually. It should be noted that this is consistent with vacation benefits afforded professionals at the senior executive level in other organizations.

At a meeting of the Personnel, Pension & Insurance Committee held on April 8, 2013, it was

Voted: That the Personnel, Pension and Insurance Committee recommend to the District Board passage of the following resolution.

BUREAU OF PUBLIC WORKS
Encroachment Agreement - 85 Davenport Drive, West Hartford

To: District Board

From: Bureau of Public Works August 5, 2013

The homeowner of 85 Davenport Drive in West Hartford requested permission from The Metropolitan District to permanently encroach upon an existing 10-foot right-of-way west of Davenport Road, West Hartford in order to reconstruct an existing deck.

The sanitary easement across the parcel was conveyed to the Town of West Hartford on August 18, 1959, and assigned to the MDC upon West Hartford becoming a member town. At the time the original= deck and swimming pool at 85 Davenport Road were constructed (1988), the property owner and the Town of West Hartford entered in an agreement jointly acknowledging that the proposed deck would encroach upon the District's sanitary sewer right-of-way, and that the Town of West Hartford would issue a building permit for the structure only upon District approval. Unfortunately, the building permit was issued and the deck constructed without this approval, as there are no records on file with The Metropolitan District evidencing such an approval.

If permitted to continue this encroachment and reconstruct the deck, the homeowner has agreed to the following conditions:

1. Any earth moving equipment that will be utilized on the parcel over and adjacent to the sanitary sewer shall be reviewed and approved by District staff prior to mobilization to the parcel;

2. No additional permanent structures, including but not limited to building foundations (other than the existing deck and the stone wall , but excluding other utilities as reviewed and approved by District staff, shall be located within the District's right-of-way;

3. The homeowner shall provide a CCTV inspection of the sanitary sewer prior to commencing any work and upon completion of all the work within the District Easement.

4. The Metropolitan District shall not be held liable for any damage caused to the deck and stone wall located within and adjacent to the right-of-way or other permanent structures immediately adjacent to the District's right-of-way in the event of any sewer repair or replacement project. The Metropolitan District will make every effort feasible to minimize damage to the utilities and adjacent permanent structures; however the cost for repairs to the other utilities and permanent structures shall be the responsibility of the homeowner. The Metropolitan District may require such insurance and/or sureties as it deems, in its sole discretion, to be necessary to protect its right of way and sewer infrastructure.

5. The final restoration of the deck, stone wall and any patio pavers shall be the responsibility of the homeowner. The District shall backfill any repair excavation to ground surface, filling consolidation settlement will be the responsibility of the homeowner. Any damaged material from the deck, stone wall or patio pavers will be disposed of by the homeowner. The material will be stockpiled at a location on the owner's property that will not interfere with District crews.

Staff has reviewed this request and considers it reasonable.

A formal encroachment agreement shall be executed between the current homeowner(s) of 85 Davenport Drive, West Hartford and The Metropolitan District, consistent with current practice involving similar requests.

At a meeting of the Bureau of Public Works held on Monday, August 5, 2013, it was

VOTED: That the Bureau of Public Works recommends to the District Board passage of the following resolution:

RESOLVED: That the Chairman or Vice Chairman of the District Board be authorized to execute an agreement, subject to approval of form and content by District Counsel, granting permission to the current homeowner(s) of 85 Davenport

Drive, West Hartford to encroach upon an existing sanitary sewer 10-foot right-of-way west of Davenport Drive, West Hartford, in order to replace an existing deck , providing that the District shall not be held liable for any costs or damages of any kind as a result of the encroachment and subject to the terms of an encroachment agreement containing the terms and conditions set forth above.

Respectfully submitted,

Chairman DiBella requested a vote to authorize the addition of an item to the agenda regarding a condemnation proceeding related to the Motts Pump Station improvement project. On a motion made by Commissioner Reichin and duly seconded, the Board agreed to add item 12a to the agenda by unanimous vote.

AUTHORIZATION TO INITIATE CONDEMNATION PROCEEDING TO SECURE EASEMENT RIGHTS AS NECESSARY TO COMPLETE THE MOTTS PUMP STATION IMPROVEMENTS PROJECT

To: District Board August 5, 2013

The MDC is currently responsible for the operation and maintenance of 78 wastewater and 10 water pump stations. Many of these pump stations were constructed in the 1960's and 1970's and, of the 88 pump stations, 33 wastewater and 2 water pump stations do not have adequate emergency power supplies. In the absence of an adequate emergency power source or interface, the MDC must connect each pump station to a portable emergency generator during severe weather events and at other times when electrical power is disrupted. During these temporary periods of electrical power disruption, the pump stations are unable to fulfill their functions and wastewater overflows and temporary disruptions to the public water supply may occur.

As a result, the MDC recently completed a study to evaluate all of its existing pump station facilities, assess the possibility of installing permanent emergency power equipment and to develop a unique solution for each pump station.

After carefully reviewing the capacity and requirements of the Motts Pump Station in Wethersfield, Connecticut, the MDC design engineers determined that it was necessary to install a portable emergency generator receptacle, update the existing electrical panel and improve the interface with CL&P's electrical power supply. The project plans also include various aesthetic and security-related improvements to the landscaping and enclosure immediately surrounding the pump station.

The project requires that the MDC acquire certain temporary and permanent easement rights from the property owner. The subject parcel and owner information is as follows:

Wethersfield Retail, LLC
150-210 Silas Deane Highway
Wethersfield, Connecticut

Attached are copies of the taking map detailing the location, area and types of easements that are the subject of the taking.

The reliability and operability of the Motts Pump Station must be addressed in a timely manner and prior to the award of the contract. To ensure this, action to take the property rights must commence forthwith. Efforts to acquire the necessary property rights continue, notwithstanding the condemnation proceedings.

The compensation to be paid to the affected property owner represents the average appraised value as independently determined by two Connecticut licensed appraisers.

As provided by the MDC Charter Section 1-4, in order to proceed with the condemnation proceedings, a resolution of the District Board is required.

THEREFORE, BE IT RESOLVED THAT:

Pursuant to Conn. Gen. Stat. § 48-12, and Sections 1-1, 1-2f and 1-4 of the Metropolitan District Charter, the Board of the Metropolitan District hereby authorizes District staff to immediately proceed with the condemnation proceeding on the aforementioned privately-owned property, to acquire such property rights pursuant thereto as are necessary for the installation, use, maintenance and repair of such improvements within or affecting said private property and to take such further or related action(s) as may be necessary to effectuate the project. Said property rights shall be obtained within one hundred and twenty days (120) of the date hereof.

The amount of compensation to be awarded pursuant to said condemnation proceeding shall be the average value of the property rights acquired, as independently determined by two Connecticut licensed appraisers.

Respectfully submitted,

Kristine C. Shaw
District Clerk

AUTHORIZATION TO EXECUTE AGREEMENT ON BEHALF OF MDC

To: District Board September 9, 2013

In the Spring of 2013, the Connecticut Department of Transportation (ConnDOT) sought proposals from eligible applicants, such as the District, for funding under the 2013 Connecticut Clean Fuel (CCF) Program, which provides incremental funding to municipal organizations in order to incent those entities to acquire alternative fuel vehicles (AFV) or clean fuel vehicles (CFV.) Specifically, these grants are intended to provide reimbursements for the incremental difference between the value of a petroleum-based fueled vehicles and AFV's or CFV's.

Given the incentives, the District applied for a CCF grant to defray the incremental cost of acquiring fourteen (14) Ford E250 Compressed Natural Gas Cargo Vans, vehicles which would be added to the District fleet in the ordinary course of its operations.

In July 2013, ConnDOT notified the District that approval had been received for a grant application in the aggregate amount of approximately $187,000.00.

To receive the funds, the District must enter into an agreement with the ConnDOT and provide a resolution indicating the person authorized to sign the agreement.

Staff recommends that the District Board duly authorize the Deputy Chief Executive Officer of Business Services/CFO be granted the authority to enter into this agreement with the CT Department of Transportation.

WATER BUREAU
Encroachment Agreement- Glastonbury Riverfront Park, Welles Street

To: District Board October 7, 2013

From: The Water Bureau

The Town of Glastonbury, through its consultant, Macchi Engineering, LLC, has requested permission from The Metropolitan District (District) to permanently encroach upon an existing 20-foot wide water right-of-way on the property of The Town of Glastonbury, west of the Town of Glastonbury Community Center. The encroachments will allow for the following work, and is represented in the attached plans labeled Encroachment A thru I.

Encroachment A: To construct a sanitary sewer force main crossing above an existing 20-inch RCP water main.

Encroachment B: To construct an electrical service trench crossing above an existing 20-inch RCP water main.

Encroachment C: To construct a seasonal skating area and permanently reduce the cover by 1.5 to 2 feet over an existing 20-inch RCP water main to facilitate ponding.

Encroachment D: To construct a retaining wall, additional portions of the sanitary sewer force main, and portions of a gravity storm drain adjacent to an existing 20-inch RCP water main.

Encroachment E: To construct a natural gas service line crossing above an existing 20-inch RCP water main.

Encroachment F: To construct a concrete utility conduit duct bank crossing above an existing 20-inch RCP water main.

Encroachment G: To construct a 1-1/2 inch irrigation line crossing above an existing 20-inch RCP water main.

Encroachment H: To construct a 1-inch irrigation line and electrical service crossing above an existing 20-inch RCP water main.

Encroachment I: To excavate in excess of 18-inches above an existing 20-inch RCP water main to install a new driveway entrance and driveway base material.

The proposed work entails the flowing:

Encroachment A: Trenching parallel and perpendicular to the water main within the easement area and backfilling with native material as shown in the attached map (Encroachment A).

Encroachment B: Trenching perpendicular to the water main within the easement area and backfilling with native material as shown on the attached map (Encroachment B).

Encroachment C: Excavation of an area totaling 102,200 square feet, of which 3,800 square feet are within the District's water right-of-way. The area will be backfilled with a clay barrier, 6-inches of crushed stone and will be loamed and seeded. The final grade for the seasonal skating area will reduce the soil cover to a depth of 3.02 feet to 3.70 feet. The resulting finished grade change should not adversely affect the structural integrity of the pipe.

Encroachment D: Excavating adjacent to the water main to a depth of 4.5 feet to install a seat wall, additional portions of the sanitary sewer force main described in Encroachment A, and portions of a gravity storm drain to a depth of 5.4 feet adjacent to an existing 20-inch RCP water main.

Encroachment E: Trenching perpendicular to the water main within the easement area and backfilling with native material as shown on the attached map (Encroachment E).

Encroachment F: Trenching perpendicular to the water main within the easement area and backfilling with native material as shown on the attached map (Encroachment F).

Encroachment G: Trenching perpendicular to the water main within the easement area and backfilling with native material as shown on the attached map (Encroachment G).

Encroachment H: Trenching perpendicular to the water main within the easement area and backfilling with native material as shown on the attached map (Encroachment H).

Encroachment I: Excavating an area 200 square feet all of which is within the District water right of way. The area will be compacted and backfilled with at least 8.5 inches of process stone base, and 3.5 inches of bituminous asphalt pavement.

The Town of Glastonbury has agreed to the following conditions in order to satisfy the District's concerns for protection of the existing 20-inch reinforced concrete pipe located within the subject parcel and accessible along the length of The Metropolitan District's right-of-way.

1. Any earthmoving equipment or material storage utilized on the site within the District's right of way will be reviewed and approved by District staff prior to mobilization.

2. No earthmoving equipment or vibratory compaction equipment shall be operated within five feet (5') of the District's physical pipe after reducing cover by more than one foot (1').

3. All heavy construction equipment, including tool trucks, shall cross the District water main at approved locations sufficiently built up with bridging material. All crossing locations must be approved by the District, prior to construction.

4. An MDC inspector must be on the job site whenever work is being performed in the right-of-way, and all associated expenses will be reimbursed by the Town of Glastonbury. The construction shall conform to District standards and 48-hours advanced notice must be given to the District prior to any construction within the right-of-way. Notice shall be given to Frank Morse (860)-278-7850 extension 3468

5. In the event the District needs access to its existing or future utilities within the encroachment, the District shall backfill to grade. The Town of Glastonbury shall be responsible for all restoration in the area of the seasonal skating area, when disturbed or damaged as a result of District work.

6. The Town of Glastonbury shall provide insulation for the 20-inch reinforced concrete water main in areas where cover has been reduced to less than four and one half feet (4 ½'), as approved by the District.

7. Sanitary sewer force main located within The Metropolitan District easement shall be wrapped with an approved filter fabric.

8. Proposed utilities will be located to provide a minimum of eighteen-inches (18") of vertical separation, the contractor shall hand dig where then there is two (2) or less feet of cover protecting the water main.

9. Any damage caused to the water main as a result of this encroachment will be repaired by The Metropolitan District or its agent at no cost to the District. District staff shall direct the method of repair. Any consequential damages incurred by the District or any third party resulting from any damage to or compromise of the water main shall be borne by the Town of Glastonbury. The formal encroachment agreement shall include a hold harmless and indemnity provision, and the District shall be named as an additional insured on the Town's and its contractor's liability insurance policy in such limits as determined by the District.

10. The contractor performing the work is required to secure a performance bond in the amount of $500,000.00. The contractor must apply for a Main Line Permit from The Metropolitan District's Utility Services Department before any work in the encroachment area commences.

District staff has reviewed this request and considers it feasible.

A formal encroachment agreement shall be executed between the Town of Glastonbury and The Metropolitan District, consistent with current practice involving similar requests.

At a meeting of The Water Bureau held on October 7, 2013, it was

AUTHORIZE EXPENDITURES TO REPLACE WATER MAIN ON PALISADO AVENUE, WINDSOR

To: District Board November 12, 2013

On July 14, 2013, the District was required to respond to a break in an existing 20-inch water main, a water main that provided domestic water service and fire service to approximately 3,500 District customers, which water main is located beneath the Farmington River in the vicinity of Palisado Avenue (Route 159) in Windsor. Immediately thereafter, District staff restored water pressure to those affected customers by implementing a series of diversions in the existing system pending the installation of a temporary replacement for the broken water main.

Shortly after the incident, the District Board was informed of this situation and the Chief Executive Officer of the District determined, pursuant to Section G8d of the District's General Ordinances, that the circumstances warranted the emergency acquisition of supplies and services in order to install the temporary water main along Palisado Avenue.

Since July 2013, District staff has worked with outside design consultants to develop plans and specifications for the installation of a permanent replacement of the water main. To date, approximately $388,400 has been expended in fees and expenses in connection with designing the temporary water main, installing the temporary water main and designing the permanent replacement. It is estimated that the cost of installing the permanent water main will be approximately $800,000.

Although the temporary 12-inch water main has functioned without issue to date, it is temporary in nature, does not have the capacity of a 20-inch water main, and the interests of the District and its customers are best served by commencing the

installation of the permanent water main as soon as possible. To that extent, the emergency continues to exist. Section G8d of the General Ordinances authorizes the District to spend up to $1 million in its efforts to respond to the emergency situation. Since it is anticipated that the aggregate cost of responding to this situation in a permanent manner is expected to exceed $1 million, District staff requests the adoption of the following resolution formally declaring the emergency, and pursuant thereto, authorization to expend certain sums in response, as provided by Section 2-16 of the District Charter as amended by Public Act 08 – 09.

Resolved That, pursuant to Section 2-16 the Metropolitan District Charter, the Board of Commissioners of the Metropolitan District hereby declares that an emergency exists related to the replacement of the temporary water main located on Palisado Avenue (Route 159), Windsor;

Be it Further Resolved That upon declaration of said emergency, and pursuant to Section 2-16 of the MDC Charter, District staff is hereby authorized to expend those funds necessary for the purchase of goods and services without competitive bidding in order to take immediate actions necessary to respond to and resolve the replacement of the temporary water main with a permanent water main;

Be it Further Resolved Notwithstanding anything to the contrary contained herein, District staff shall solicit no less than three (3) bids from qualified contractors to perform the work necessary to replace the temporary water main.

Be it Further Resolved That District staff shall report to the District Board at the next regularly scheduled district board meeting, and as necessary, subsequent meetings as to the status of the installation of the permanent water main.

Respectfully submitted,

John S. Mirtle, Esq.
District Clerk

On motion made by Commissioner Camilliere and duly seconded, the report was received and resolution adopted by unanimous vote of those present.

At 5:34 p.m. Commissioner Kronen exited the meeting.

COMMITTEE ON MDC GOVERNMENT
REVISIONS TO DISTRICT WATER RATES

To: District Board

From: Committee on MDC Government December 9, 2013

The 2014 budget in support of Water Operations calls for a 1.2% water use rate increase from $2.50 to $2.53 per hundred cubic feet (CCF). The peripheral charges associated with the delivery and sale of water have also been increased. The water rate increases are attributable to 5.1% expenditure increase in the 2014 budget which increases the revenue required from the water rates to support the budget. The increases will become effective January 1, 2014.

A discussion of the several rates that comprise the proposed schedule for 2014 and the recommendations pertaining to each follows:

Water Used Charge – Treated Water

Staff recommends that the rate charged for the use of treated water based on actual metered consumption increase from $2.50 per CCF to $2.53 per CCF. The increase for fiscal year 2014 would increase the current water rate by $0.03 cents per hundred cubic feet (CCF).

The recommended rate for treated water, based on actual metered consumption, is:

WATER USAGE	**CURRENT RATE**	**PROPOSED RATE**
All Customers	~~$2.50/100 Cu. ft.~~	$2.53/100 Cu ft.

Customer Service Charge

Revenues from this customer service charge are to intended to support the fixed operating, maintenance and debt costs associated with water operations. The customer service charges for residential sizes will remain unchanged from the 2013 rates. The customer service charges for the 6", 8" and 12" will be increased by $1,238.76, $1,651.68 and $3,303.36 per quarter respectively.

Surcharge Outside The Metropolitan District

A fixed "surcharge" rate is added to all accounts for service outside the boundaries of the District. The surcharge is based on the size of the meter that serves each delivery point. Revenues from this charge are for the reimbursement of assets deployed. The surcharge rate has been decreased from the 2013 rates. In the residential category a 5/8" meter will be reduced from $105.75 per quarter to $49.74 per quarter in 2014.

Water Used Charge – Untreated Water

The District provides untreated water to other agencies and water companies for a fixed rate based on actual consumption. The current rate for this untreated or "raw" water is $1.00 per hundred cubic feet of consumption. It is recommended that the charge for untreated water remain at the rate of $1.00 per hundred cubic feet.

Private Fire Protection Charge

Rates for private fire protection are charged to all fire service accounts based on the size of the service connection. Staff recommends a 1.2% increase to all rates for private fire protection.

Conclusion

Staff believes that the foregoing rate change recommendations are justified, reflect the sound financial administration that has earned the District support among credit rating agencies and financial advisors, and are consistent with the policy direction of the Commission.

At a meeting of the Committee on MDC Government held on December 9, 2013, it was:

Voted: That the Water Bureau, acting under Section 5-4 of the District Charter, establishes revised water rates effective with the meter readings rendered on and after January 1, 2014, as set forth in the following "REVISIONS TO WATER SUPPLY ORDINANCES."

Further Voted: That following the public hearing held on November 13, 2013, as required by Special Act 01-3, as adopted by the General Assembly of the State of Connecticut, and Section 2-14 of the Charter of The Metropolitan District, the Water Bureau recommends to the District Board, through the Committee on MDC Government, approval of the following "REVISIONS TO WATER SUPPLY ORDINANCES" by the enactment of said proposed ordinances. If permitted to encroach and construct the driveway and utility services, the property owner has agreed to the following conditions in order to satisfy the District’s concerns for protection of the existing 27 inch RCP sanitary sewer:

1. Any earthmoving equipment that will be utilized on the parcel over and adjacent to the sanitary sewer shall be reviewed and approved by District staff prior to mobilization to the parcel;

2. No additional permanent structures, including but not limited to building foundations and utilities, shall be located within the District's right of way.

3. The homeowner shall provide a Closed Circuit Television (CCTV) inspection of the sanitary sewer prior to commencing any work and upon completion of all work within the District Easement;

4. The Metropolitan District shall not be held liable for any damage caused to the utility services or driveway located within and adjacent to the right-of-way or other permanent structures immediately adjacent to the District's right-of-way in the event of any sewer repair or replacement project. The Metropolitan District will make every effort feasible to minimize damage to the utilities and adjacent permanent structures; however the cost for repairs to the other utilities and permanent structures shall be the responsibility of the homeowner. The Metropolitan District may require such insurance and/or sureties as it deems, in its sole discretion, to be necessary to protect its right of way and sewer infrastructure.

5. The District will provide an inspector on site during the construction of said improvements within the right of way. Connecticut Real Estate Properties, LLC shall allow and schedule the inspector to be on-site. Connecticut Real Estate Properties, LLC shall also contact the Metropolitan District Manager of Construction Inspection Mr. Frank Morse at 860-278-7850 extension 3702 at least five business days prior to the commencement of any work within the easement. In addition to ensuring that the specific conditions of this Agreement are met, said inspector shall, in his or her sole discretion, have the unilateral right to halt construction activities in the event the integrity of the District's sanitary sewer main is in any way threatened. In such event, the District may impose additional reasonable conditions not set forth in this Agreement to prevent damage to its sanitary sewer mains.

6. The contractor shall maintain a copy of this agreement on-site at all times and it shall be made available to District staff upon request.

7. Construct and maintain bituminous concrete pavement structure for driveway inside District right of way as detailed in Construction Plan provided by Connecticut Real Estate Properties, LLC.

Metropolitan District staff has reviewed this request and considers it reasonable.

A formal encroachment agreement shall be executed between the current property owner(s) of 129 Main Street, Newington, and the Metropolitan District, consistent with Construction Plan on file and current practice involving similar requests.

Re: Rates and Fees for Non-Member Towns

Dear MDC Board Members

This letter is written on behalf of the South Windsor Town Council concerning water rates assessed in the current year for non-member water customers of the Metropolitan District and the proposed rate increases for 2014. As you know, South Windsor is a non-member town with approximately 1800 District customers for water service.

We, the South Windsor Town Council on behalf of the South Windsor MDC Customers urge you to that the non-member town water users to be charged for water service in the same manner as member town users. We believe that the General Surcharge for non-member town users inequitable and contrary to the provisions of the MDC Charter, Sections 5-8 and 5-9.

This letter is again our expression of strong opposition to the General Surcharge imposed upon MDC non-member towns as a cost not assessed to customers of member towns, and hereby advises the District that the Town of South Windsor shall work with other Non Member towns to look at various remedies to this General Surcharge.

We request the District Board revise the 2014 budget to eliminate the non-member town user General Surcharge and replace in a revenue neutral manner with a surcharge that is assessed equally to all water users from both member and non-member towns.

Sincerely

M. Saud Anwar

Re: Rates and Fees for Non-Member Towns

Dear MDC Board Member:

This letter is written on behalf of the Glastonbury Town Council concerning water rates assessed in the current year for non-member water customers of the Metropolitan District and the proposed rate increases for 2014. As you know, Glastonbury is a non-member town with approximately 6,000 District customers for water service. By letter of November 13, 2013, the Council formally advised the District Water Bureau of its strong opposition to the General Surcharge. A copy of this prior letter is attached.

Given the MDC's Charter, which requires non-member town water users to be charged for water service in the same manner as member town users, the Glastonbury Town Council considers the General Surcharge for non-member town users inequitable and contrary to the provisions of the MDC Charter, Sections 5-8 and 5-9.

At its meeting on December 3, 2013, the Council unanimously approved and reaffirmed the following action:

"BE IT RESOLVED, that the Glastonbury Town Council hereby expresses its strong opposition to the General Surcharge imposed upon MDC non-member towns as a cost not assessed to customers of member towns, and hereby advises the District that the Town of Glastonbury shall seek legislative relief from the General Surcharge and a possible legal remedy, including an injunction against the General Surcharge, as deemed necessary."

The Council hereby formally requests the District Board revise the 2014 budget to eliminate the non-member town user General Surcharge and replace in a revenue neutral manner with a surcharge that is assessed equally to all water users from both member and non-member towns.

Sincerely,

Richard J. Johnson

Attn: Mr. William DiBella, Chairman

Dear Chairman DiBella and Commissioners:

We are writing this letter concerning the surcharge assessed in the current year for non-member water customers of the Metropolitan District, and the proposed surcharge for 2014.

We acknowledge the obligation of the non-member customers to pay their fair share of the infrastructure costs related to water delivery, and we sincerely appreciate the District's efforts to reduce the surcharge for the year 2014. However, we remain concerned with the manner in which these charges were determined, and the adequacy of the reduction going forward.

We believe that safeguards are needed to ensure the fairness of the assessment process for non-member customers, and we are willing to work with you to develop an equitable long-term solution for all involved. Toward that end, we plan to review prior legislation regarding the Metropolitan District, with the goals of strengthening the transparency of the assessment process, increasing accountability to all affected customers, acquiring representation for non-member towns, and introducing a system of review and oversight to the process.

We appreciate your attention to our concerns, and look forward to your continued co-operation.
