EASEMENT IN FAVOR OF CONNECTICUT DEPT. OF TRANSPORTATION OVER DISTRICT PROPERTY LOCATED AT 1557 BERLIN TURNPIKE, WETHERSFIELD

To: Water Bureau for Consideration on January 20, 2021

The State of Connecticut Department of Transportation (“DOT”) as part of its Coordinated Traffic Signal System Project on U.S. Route 5/ Route 15 (the “Project”) has been working with District staff and reached a tentative agreement regarding an easement over District property necessary to complete the Project. The purpose of the easement is to install an electric conduit to provide electricity to power a traffic controller cabinet. The proposed easement is set forth in the easement map attached hereto as Exhibit A.

The compensation offered for the easement by DOT is \$500.00 for 370 sq. ft. (equals \$1.35 per sq. ft. or \$58,806.00 per acre). The valuations assigned by DOT are consistent with District valuation for similar easements acquired for District infrastructure improvements on private property.

It is RECOMMENDED that it be:

Voted: That the Water Bureau recommends to the District Board the following:

Resolved: That the Water Bureau recommends to the District Board that the Board authorize the Chairman, or his designee, to execute any and all documents, in form and substance approved by District Counsel, reasonably necessary to convey, for the consideration stated above, the described easements to DOT.

Respectfully Submitted,

Scott W. Jellison
Chief Executive Officer

On motion made by Commissioner Pane and duly seconded, the report was received and resolution adopted by unanimous vote of those present.

2022 DISTRICT WATER RATES

To: Water Bureau for consideration on November 22, 2021

The 2022 budget in support of Water Operations calls for the water use rate to increase to \$4.09 per hundred cubic feet (CCF). The changes will become effective January 1, 2022.

A discussion of several rates that comprise the proposed schedule for 2022 and the recommendations pertaining to each follows:

Water Used Charge – Treated Water

Staff recommends that the rate charged for the use of treated water based on actual metered consumption increase from \$4.05 per CCF to \$4.09 per CCF.

CURRENT RATE
\$4.05/100 Cu. ft.

PROPOSED RATE
\$4.09 /100 Cu ft.

Customer Service Charge

Revenues from this customer service charge are intended to support a portion of the fixed operating, maintenance and debt costs associated with water operations. ***There are no proposed changes to the Customer Service Charge for 2022.***

<u>SIZE OF METER</u>	<u>MONTHLY BILLING</u>
5/8"	\$14.98
3/4"	\$14.98
1"	\$14.98
1 1/2"	\$48.60
2"	\$77.80
3"	\$145.89
4"	\$243.55
6"	\$486.07
8"	\$771.16
10"	\$1,777.77
12"	\$1,896.38

Surcharge Outside The Metropolitan District

A fixed “surcharge” rate is added to all accounts for service outside the boundaries of the District. The surcharge is based on the size of the meter that serves each delivery point. Revenues from this charge are for the reimbursement of assets deployed. The surcharge rates have been set at the same rates as the Customer Service Charges. ***There are no proposed changes to the surcharge for 2022.***

<u>SIZE OF METER</u>	<u>MONTHLY BILLING</u>
5/8”	\$14.98
3/4”	\$14.98
1”	\$14.98
1 1/2”	\$48.60

8”	\$771.16
10”	\$1,777.77
12”	\$1,896.38

Water Used Charge – Untreated Water

The District provides untreated water to other agencies and water companies for a fixed rate based on actual consumption. The current rate for this untreated or “raw” water is \$1.50 per hundred cubic feet of consumption. ***It is recommended that the charge for untreated water remain at the rate of \$1.50 per hundred cubic feet.***

Surcharge Outside the Metropolitan District for Capital Improvements

A surcharge is added to the water rate to recover the cost of major capital improvements and/or upgrades such as water main extensions, pump stations, etc. in non-member towns. The surcharge is calculated based on the aggregate hydraulic capacity of each meter size in each non-member town.

Private Fire Protection Charge

Rates for private fire protection are charged to all fire service accounts, including combination services, based on the size of the service connection. Staff recommends monthly service charges for fire protection to remain unchanged.

<u>SIZE OF CONNECTION</u>	<u>MONTHLY CHARGE</u>
1"	\$5.00
2"	\$22.85
3"	\$33.75
4"	\$60.00
6"	\$135.00

12"	\$540.00
16"	\$960.00
20"	\$1,500.00
24"	\$2,160.00

Conclusion

Staff believes that the foregoing rate change recommendations are justified, reflect the sound financial administration that has earned the District support among credit rating agencies and financial advisors, and are consistent with the policy direction of the Commission.

After reviewing the information contained herein

It is **RECOMMENDED** that it be

Voted: That the Water Bureau, acting under Section 5-4 of the District Charter, establishes revised water rates effective with the meter readings rendered on and after January 1, 2022, as set forth in the following "REVISIONS TO WATER SUPPLY ORDINANCES."

Further

Voted: That the following rates have been eliminated through State Legislation and will no longer appear as a separate line item on customer bills:

1. State of Connecticut Department of Public Health primacy fee of \$0.16 per month.

Further

Voted: That following the public hearing held on November 15, 2021, as required by Special Act 01-3 adopted by the General Assembly of the State of Connecticut, and Section 2-14 of the Compiled Charter of The Metropolitan District, the Water Bureau recommends to the District Board, through the Committee on MDC Government, approval of the following "REVISIONS TO WATER SUPPLY ORDINANCES" by the enactment of said proposed ordinances. (Additions are indicated in red and deletions by strikethrough).

**REVISIONS TO WATER SUPPLY ORDINANCES
W-1 WATER RATES**

SEC. W1a WATER USED CHARGE (TREATED WATER)

For customers which do not resell treated water, the WATER USED CHARGE is the quantity of water used as read at the meter, as follows:

<u>BILLS RENDERED</u>	<u>RATE</u>
<u>MONTHLY</u>	\$4.05 \$4.09 per 100 Cubic Feet

The WATER USED CHARGE for such customers subject to § S12x of The Metropolitan District Sewer Ordinances who purchase more than 802ccf of water per day, as averaged over a monthly billing period, as follows:

For each of the first 802ccf of water used per day:

<u>BILLS RENDERED</u>	<u>RATE</u>
<u>MONTHLY</u>	\$4.05 \$4.09 per 100 Cubic Feet

For each ccf of water used per day in excess of 802ccf:

<u>BILLS RENDERED</u>	<u>RATE</u>
<u>MONTHLY</u>	\$3.30 \$3.34 per 100 Cubic Feet

For customers which, by agreement with the District or otherwise, resell treated water, the WATER USED CHARGE is the quantity of water used as read at the meter, as follows:

<u>BILLS RENDERED</u>	<u>RATE</u>
<u>MONTHLY</u>	\$4.05 \$4.09 per 100 Cubic Feet

SEC. W1f SURCHARGE OUTSIDE THE METROPOLITAN DISTRICT FOR CAPITAL IMPROVEMENTS

In towns outside the limits of The Metropolitan District for which capital improvements or layout and assessment projects are constructed, in addition to the charges set forth in SEC. W1a, W1b and W1c, there shall be a surcharge on the water rates determined from the size of the meter installed on the premises, as follows:

1. On or before the end of each fiscal year, The Metropolitan District shall determine the actual cost of each capital improvement constructed for each non-member town and the net cost (cost less assessments) of layout and assessment projects constructed for each non-member town. The costs and/or net costs, as applicable, shall be allocated to the towns for

which the work was performed and shall be a surcharge on the water rates of the users located in such towns.

2. The annual surcharge to be added to each user's water rate shall equal the total amount of the costs and/or net costs, as applicable, allocated to the town in which such user is located [excluding costs which the town has paid as set forth in Section W1f(3)] amortized over a twenty year period using an interest rate computed by the District which approximates the District's long-term cost of funds for its General Obligation Bond portfolio—multiplied by the percentage of hydraulic capacity of each user's meter size (based on the American Water Works Association meter size capacity) of the aggregate hydraulic capacity of all meters in such town. The surcharge shall be billed in either quarterly or monthly installments, as applicable, commencing with the first bill sent out in the fiscal year succeeding the fiscal year in which the work was performed and continuing over the twenty year period.

3. The District shall, as soon as possible after the completion of each capital improvement project or separate phase thereof, provide to the non-member towns for which a capital improvement was constructed a compilation of the costs associated with the construction of such project(s). If, on or before the end of the District's fiscal year in which such construction was completed, a non-member town agrees to pay and does in fact pay all or a portion of the cost of a capital improvement constructed for such town, then the amount paid by such town shall be deducted from the total amount of costs and/or net costs allocated to such town as described in Section W1f(1) and used to calculate the individual surcharges as set forth in Section W1f(2).

APPROVAL TO EXECUTE ON DISTRICT WATER SUPPLY ORDINANCE

To: Water Bureau for consideration November 22, 2021

As part of the District's RF replacement program, the District has greatly reduced the number of customer accounts with extended periods of estimation through replacement of old water meters and/or RF devices. There are less than 1,000 customers with ongoing estimated readings that have been unresponsive to requests to replace the meter or RF. In 2017 the District modified Water Supply Ordinance § W2c to include a customer's denial of access to inspect or replace the water meter and equipment as grounds for shutting off the water service. The District has not yet acted to shutoff service of these unresponsive customers but is now seeking the Water Bureau's authorization to do so in order to obtain access and replace the water meter/RF device on the final group of long standing estimated accounts.

Therefore, it is **RECOMMENDED** that it be

VOTED: That the Water Bureau recommends to the District Board to passage of the following resolution:

RESOLVED: That District staff is hereby authorized and directed to commence shutoffs of customers with longstanding periods of estimated bills that refuse to provide the District access to the water meter and/or RF device in accordance with t Water Supply Ordinance §W2c;

FURTHER

RESOLVED: District staff shall provide 14 days written notice to customers of pending shutoff of service due to failure to grant access to the water meter, RF device, or other District equipment.

Respectfully submitted,

Scott W. Jellison
Chief Executive Officer

On motion made by District Chairman DiBella and duly seconded, the report was received and resolution adopted by unanimous vote of those present.
